## Mrs. S. E. Greenwald

Says Vinol, our Cod Liver and Iron Tonic, made her eat better, sleep better and feel better.

Centralia, Ill.—"I was run-down, could not eat or sleep, and my lungs pained me a good deal so I could hardly do my housework. Vinol built me up after all other medicines had failed so now I eat better, sleep better and feel better in every way. Vinol is certainly good for a run-down system."—Mrs. S. E. GREENWALD.

Such letters prove how nervous, anemic, run-down, overworked men, women and children increase their appetites, strength and endurance by taking Vinol. That is because it contains beef and cod liver peptides, iron and manganese peptonates—the greatest tonics known.

Your money back if it fails.

## For Motherhood A Woman Testifies

Omak, Wash.—"In the five years we have been married we have had three children and lost two of them. I doctored with two of our local doctors and they told me I had kidney trouble. I began taking Dr. Pierce's medicines, first having written to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., telling exactly how I was and had been, what I had done, and asked what I should do. They told me to take Dr. Pierce's Favorite Prescription which is a woman's medicine; the Golden Medical Discovery which is a tonic and the Auric Tablets for the kidneys. I took all of these medicines and today I have a strong, healthy baby girl, also I am better than I ever was before."

"I can never thank Dr. Pierce enough for his kindness in giving me advice all during pregnancy and in analyzing the samples, free of charge, that I sent to him."

"I would be glad to answer any questions that I can in regard to what Dr. Pierce's medicines did for me."—MRS. H. D. SIMPSON.

Stockton, Cal.—"I had feminine trouble, displacement, inflammation, terrible headaches, terrible backache and a catarrhal condition. I also had indigestion very bad. I had tried other things but nothing seemed to help me until I took Dr. Pierce's Favorite Prescription. It cured me—I got well and strong. I took three bottles."—MRS. C. BOUDON, 9 E. South St.

When a woman complains of backache, dizziness or pain—when everything locks black before her eyes—a dragging feeling, or beating-down, with nervousness, she should turn to this "temperance" herbal tonic known as Dr. Pierce's Favorite Prescription. It can be obtained in almost every drug store in the land and the ingredients are printed in plain English on the wrapper. Put up in bottles or liquid. Dr. Pierce, of Invalids' Hotel, Buffalo, N. Y., will send a trial size for 10 cents.

Not a Bite of Breakfast Until You Drink Water Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind incombustible ashes, so the food and drink taken day after day leaves in the alimentary canal indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infect the bowels. From this mass of left-over waste, toxins and ptomainelike poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before breakfast each morning drink a glass of hot water with a teaspoonful of limestone phosphate in it to wash out of the bowels the previous day's poisons and toxins, and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foetid breath, backache, rheumatic stiffness or have a sour gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

# Millionaires

## —who take in roomers

PLAIN, simple country folk down in Texas went to bed one night as poor as the proverbial church mice and awoke to find themselves millionaires!

But they cannot accustom themselves to their new prosperity, and they do the most extraordinary things imaginable with their newly acquired wealth. Old Jake Wells went right out and bought him-

self \$4.80 worth of bananas, ate them, and died.

Mrs. Snodgrass, wife of the village doctor (who hasn't the slightest idea how rich she is), built a large wing on the old homestead so she could take in more roomers!

And it's true! The great oil boom that has recently transformed the most desolate section of Texas into a land of untold wealth has produced a new phenomenon in our national life—unlike anything the world has ever seen before.

Don't fail to read "Millionaires Made While You Wait," by Frazier Hunt, in the new Cosmopolitan

### Is parent-love a menace?

Great men almost invariably have had unusual mothers or fathers who played a conspicuous part in shaping their lives. And yet eminent psychologists tell us that the pampering love of parent for child—unless wisely directed—can do tremendous harm.

Harvey O'Higgins has interviewed one of the greatest nerve-specialists in America on this vital problem. Nothing more amazing and dramatic has been written about human relationships than "The Love-Image," in this month's Cosmopolitan.

### Are wives harder to get along with than husbands?

Boxer thought so, because, as he told his friend Charny, his wife had called him a "drunken satyr" simply because he tried to light his cigarette at an electric-light bulb.

And Charny agreed with him because his wife had told him that he never kept a promise in his life. And he sometimes did! Gouverneur Morris, in "The Great Friends," has surpassed himself in this rollicking story of domestic misunderstandings and how they were overcome. Don't fail to read it in the new Cosmopolitan.

### When a financier's wife pawns her jewels

You won't know until the end of the story why she did it. But when the pretty young wife of a feeble old millionaire is seen to frequent a pawnbroker's, and then enter a cheap lodging-house, being watched by a good-looking detective—well, there's enough mystery, love, action, and high finance in this unusual story to satisfy anybody.

"Her Secret"—by Will Payne—is the first of a series of the adventures of Ben Bodet, business detective, who—we prophesy—will take rank as one of the most interesting sleuths of fiction.

### They discovered the fountain of youth

"Phony" Dick and "Overcoat" Bennie had just relieved an oil magnate of \$500. But when they went and lost it on the Kentucky Derby they simply didn't have the heart to go home to Mrs. "Phony," who kept the cash (and who also kept track of their prowess in the papers). So they decided to take a little fishing-trip out California way, and that's how they happened to discover the Beauty Fountain.

You who have applauded his "Boston Blackie" stories will delight in this crook story in a lighter vein by Jack Boyle in the current Cosmopolitan.
