The Franklin Car

No other car is so easy to handle as the light and flexible Franklin. Driving it is never a strain, even under the worst road and weather conditions.

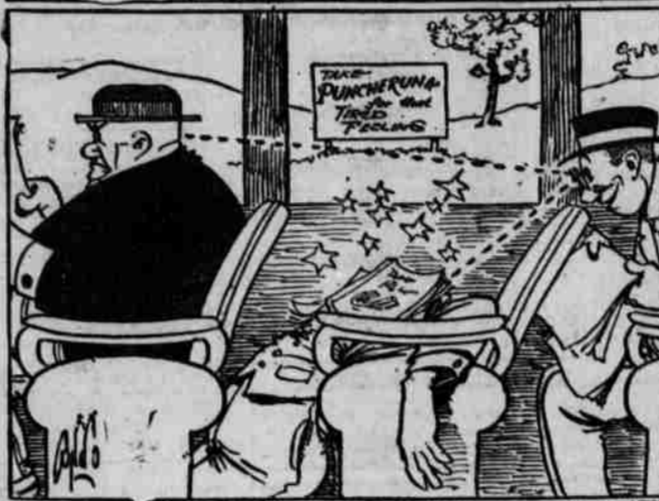

That explains in part why Franklin owners drive their cars longer distances in a day with more comfort and safety.

20 miles to the gallon of gasoline.
 12,500 miles to the set of tires.

Wheat Coming Slow
 Owing to frosts.
 The winter wheat is growing very slowly owing to the frequent frosts and thaws, according to S. R. Thompson. With conditions as they are, it is difficult to determine just how well the wheat is doing. Plowing is underway on the Thompson and Perringer places and one or two others where the land has a south exposure. On the north exposure there is still frost in the ground.

Trade for Stock on Nominal Basis.

Only two carloads of livestock entered the North Portland market for the closing day of the week and trade remained on a nominal basis. Small supply of hogs came forward and these were of indifferent quality.

General hog range:
 Prime mixed \$15.75 @ 16.25
 Medium mixed 15.25 @ 15.75
 Rough heavies 11.00 @ 12.25
 Pigs 13.00 @ 15.00
 No cattle came for the week end but none were wanted. The situation is extremely quiet with killers overloaded with supplies. Nominal prices follow.

General cattle range:
 Best Grain steers \$12.00 @ 12.75
 Choice steers 11.00 @ 11.50
 Good to choice steers 10.00 @ 11.00
 Medium to good steers 9.00 @ 10.00

 A handful of stuff was shown in the mutton and lamb alleys at North Portland. Demand and prices held steady at the previous range.

Corn Goes Lower;
 Oats Holding.
 The coarse grain market today is slightly slower with corn down to \$57 for both immediate and future shipment. At this bid, there is little trading. Oats are holding at \$58.50 and \$59.50 and mill feed bid is \$40. Bar-

The Inward Effects of humors are worse than the outward. They endanger the whole system. Hood's Sarsaparilla eradicates all humors, cures all their inward and outward effects. It is the great alternative and tonic, whose merit has been everywhere established.

Theodore Roosevelt Said

"Every person who invests in well selected real estate in a growing section of a prosperous community, should be sure to use the surest and safest method of becoming independent, for real estate is the basis of all wealth."

HERE IS A GOOD INVESTMENT
 1760 acre wheat ranch—500 acres seeded to Hybrid wheat, which is now looking fine. About 1000 acres pasture fenced separate. Included with this ranch is all stock and equipment, 20 horses and harness, tractor, separator, plows, drills and all kinds of other machinery.

This all goes at \$35.00 an acre, and we are confident that this year's crop will more than pay one-third the purchase price, leaving a nice bunch of land to summer-fallow this year.

SEEN AT NIGHT

DANGER

Motorists along Ohio's roads next season will have no trouble riding at night, for this sign at danger points will glare at them and warn them against accident. The Cleveland Automobile Club has been putting these up through the winter. While the word, "Danger" in red is easily seen by day, the square beneath, at night, throws back a glowing red to the motorist as his headlights strike it.

ONE MAN IS STUDENT OF COSTUME DESIGNING

EUGENE, Or., Feb. 23.—The Costume design and design class at the University of Oregon are composed of 35 girls—and Glenn C. McConogal, a special student at the university. McConogal is an ardent advocate of the propriety of men planning women's gowns. "I like it," he says. "And that's not the only thing he likes."

"I like the attitude which the girls here hold toward me," continues McConogal. "I spent nearly a year at Harvard. And the girls at Radcliffe are really fine, but they can't forget for one minute that they are descendants from the Mayflower. The girls here in the west are not like that. They treat a fellow as if he were a human being and not a freak because he happens to like this sort of thing."

Design, costume design, color theory, pen and pencil, unified mathematics and English are among the subjects which McConogal is studying at the university.

GERMANY STILL HAS 400,000 ARMED FORCE

PARIS, Feb. 23.—The German army is still 400,000 strong, according to a report received by the committee of foreign affairs today from General Niessel, head of the Baltic mission. In addition, there are 100,000 policing forces, 15,000 being in the neutral zone on the right bank of the Rhine. Germany also is well supplied with tanks, machine guns and airplanes. Niessel adds that the German government is capable, if willing, of obtaining execution of the treaty clauses by the country.

MASS IS CELEBRATED FOR DEPARTED POLICE

NEW YORK, Feb. 23.—A solemn high mass of requiem for the dead of the police department was celebrated yesterday morning in St. Vincent's church. Four hundred officers and men under Lieut. Andrew Devery marched from the 67th street station to the church, where the Rev. Dr. W. G. Ives and the Rev. Dr. John Wade, chaplains for Brooklyn and Manhattan respectively, and William Gillespie, representing Commissioner Enright, joined them.

HOLDS BABY HAS BETTER CHANCE IN ANY OF SEVEN COUNTRIES OUT OF U. S.

SAN FRANCISCO, Feb. 23.—If a baby had normal mature intelligence and the right of selection it would choose any one of seven countries outside of the United States for its birthplace in order that its chance of life might be better. Mrs. Elizabeth Perkins, Ann Arbor, Mich., national director of child welfare work for

the Woman's Christian Temperance union, told the Pacific division regional conference for the union Saturday.

"Three hundred thousand babies die every year in the United States, or about one for every 10 born," Mrs. Perkins said. "Almost all die as a result of conditions which could be prevented."

"It is recorded that the United States stands 14th in the line of civilized countries in its care of mothers at maternity; that 15,000 mothers die each year from childbirth and almost all from preventable causes."

Extension of a common language was urged by Mrs. Mary C. Barnes of New York, the unions' national director of Americanization, who submitted her report yesterday. "Four hundred thousand young men who answered the selective draft call could not write home or read the president's proclamations," she said.

Breweries are going to China and the W. C. T. U. must follow, Miss Francis Willard Wang of Shanghai told the conference. Among others on the program for talks are Miss Jane M. Donaldson, Portland, Ore., and Miss Murryce L. Curry, Olympia, Wash.
