# The World's Largest Tire Factory Building 30x3, 30x3½ and 31x4-inch Tires

Owners of small cars can enjoy the same high relative value in Goodyear Tires that gives utmost satisfaction to owners of big, costly motor carriages.

They can take advantage of that tremendous amount of equipment, skill and care employed by Goodyear to build tires of extraordinary worth in the 30x3-, 30x3½-, and 31x4-inch sizes.

They can secure these tires without waiting, despite the enormous demand, because, in addition to its larger sizes, Goodyear builds an average of 20,000 a day in the world's largest tire factory devoted to the three sizes mentioned.

If you own a Ford, Chevrolet, Dort, Maxwell, or any other car using one of these sizes, go to the nearest Goodyear Service Station Dealer for Goodyear Tires and Goodyear Heavy Tourist Tubes.

30 x 3½ Goodyear Double-Cure Fabric, All-Weather Tread... \$20.00  
30 x 3½ Goodyear Single-Cure Fabric, Anti-Skid Tread... \$17.65

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water... \$3.90 proof bag.

DESPAIN & LEE CASH GROCERY

Feb. 21, 1920.

Dear Patron:

Pursuing the policy which has directed our efforts since our opening day, of giving our customers the very best of service, the greatest choice and variety of groceries at the lowest prices consistent with good business and a fair margin of profit, we are inaugurating a new order in this establishment.

It has been demonstrated beyond question that the store or grocery wherein the credit system prevails, must charge a sufficient additional per cent of profit on the goods sold to take care of paying for the goods sold to those people who do not, or cannot, pay their bills. It is further patent to the economic housewife and good business man that the credit system entails keeping of a great number of books of account, the collecting of accounts, and so on, which of course takes the time of one or more employees. All this must be paid for by you who pay your bills.

The total cost of doing a credit business approximates 15 per cent over and above the "for cash" retail price. And so we are doing away with our credit business; we are installing a strictly cash business system and we are deducting from the price of every single article in our stock, the per cent that it has previously cost us and cost you, to do a credit business.

We are sure we will please you with our new plan. It has a very great many additional beneficial features, but the chief benefit is the direct and certain saving of a big per cent on your groceries.

Trusting you will permit us to serve you further, and that we will please you with our new system, we are  
Yours very truly,

DESPAIN & LEE CASH GROCERY
