A Magnificent Pageant of Spring Fabrics

Before you purchase the materials for the making of your new Spring Apparel it would be well to view this brilliant exhibition. This showing will familiarize you with the fabrics which are most desired for future wear and will save you the annoyance of choosing goods which do not promise to be popular instead of those that do. These low prices will be in evidence to insure you an excellent saving on every yard you purchase.

The Favored Silks

There has been no silks created in any past season that can emulate these in this showing, for beauty in color or design. A casual inspection of them will thoroughly convince you of the truth of this statement. All are facsimiles of the fabrics now being used in the most favored garments for the spring wardrobe. We list but a few of the most select specimens.

Skirt silks, such as ripple spray and Kinsai Kumsa, Countess satin, etc., at \$5.00 to \$11.00 yard.

Silk Duventyne at yard \$11.00
Sport Pongos at yard 30c to 50c
Fourfold silks at yard \$3.50 to \$1.50

Notions for Spring Sewing

Right now, you might be making a garment for yourself or for some one else; and no doubt, will need more thread, needles, thimbles, etc., before it is completed; also buttons to match the color of the material and braid or taping to finish it off. Then, too, you will need some hooks and eyes, and other things too numerous to list here. Anyway, no matter what your needs may be along this line we feel certain you can secure them here, and secure them, mind you, at prices that mean a saving on every purchase.

Watch for an interesting announcement from this department this week.
