KABO

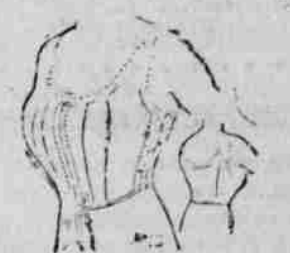

is the one corset pre-eminently identified in the mind of the public with the "Live Model" idea upon which all modern corsetry is based. To practically every woman in the United States the word KABO means a good, dependable corset. There is a model for every figure type and they come in both front and back lace.

MODART CORSETS
The perfect front lacing corsets. By perfecting the front lacing principle in corsets, Modart designers have given woman-kind smarter figure lines as well as greater comfort. There is a Modart model for every type of figure that will fit that figure perfectly. Exceptional values from \$5.50 to \$25.00.

ELASTO CORSETS
Add elastic and dispense with lacings to achieve the new silhouette. Sections of pink broche and elastic alternate to fashion lightly boned waist line corsets, giving at once the slightly uncorsetted effect of the French figure, and the slender effect of the American silhouette. Prices \$4.00 to \$7.50.

"Ah, but this brassiere is different!"
It requires no fixing to make it fit.

The Nemo Brassiere

"Fits as You Fasten!"

The under-arm lacings are controlled by waist-tapes. When you draw and tie the tapes, the brassiere adjusts itself exactly to your requirements. It remoulds, reshapes and flattens the bust; supports the back and gives an erect carriage. Nemo Brassieres do not pull, shrink or stretch. They're made well and, as a result, they wear well. And they ALWAYS FIT! Models for various figures—all prices.
