GAVE HER STRENGTH

Mrs. Miller Says That is What Lydia E. Pinkham's Vegetable Compound Did For Her—Read Her Letter—

Minneapolis, Minn.—"I was run down and nervous, could not rest at night and was more tired in the morning than when I went to bed. I have two children, the youngest three months old, and it was drudgery to care for them as I felt so irritable and generally worn out. From lack of rest and appetite my baby did not get enough nourishment from my milk so I started to give him two bottle feedings a day. After taking three bottles of Lydia E. Pinkham's Vegetable Compound I felt like a new woman, full of life and energy. It is a pleasure to care for my children and I am very happy with them and feel fine. I nursed my baby exclusively again and can't say too much for your medicine."
 —Mrs. A. L. MILLER, 2633 E. 24th St., Minneapolis, Minn.
 Since we guarantee that all testimonials which we publish are genuine, it is not fair to suppose that Lydia E. Pinkham's Vegetable Compound has the virtue to help this woman it will help any other woman who is suffering in a like manner.

THE GASOLINE SITUATION

The Necessity of Conservation

There exists today on the Pacific Coast an acute shortage of gasoline. As this Company has pointed out on several occasions, the condition is due to insufficient production of crude oil and a greatly increased consumption of gasoline by industry and by owners of pleasure cars.

Gasoline is a vital factor in the life of the community, industrially and otherwise, and it is of the greatest importance, at this juncture, that it be used with the utmost discretion, that essential requirements may be supplied.

The present is by no means the season of maximum demand, which comes later in the year. The condition, therefore, is likely to be continuing, rather than transitory.

Responsibility for meeting the situation does not rest solely upon the oil industry. The public also has a serious duty in the matter.

On its part, the Standard Oil Company is straining its resources and organization to increase the supply of gasoline. In the field it is working for the maximum production of crude oil. In the refinery it is working for the maximum production of gasoline from the crude oil and it is spending large sums of money on equipment for new processes, of its own discovery and development, whereby a still greater yield of gasoline will be obtained.

The point already has been reached where gasoline must be conserved most carefully. That is a duty of the public. In consumption of this product, essential industries must necessarily come first—pleasure utilization thereafter.

Already the Company has taken steps toward protecting the supply for the vital needs of industry which, if lessened, would affect the business life of the community. There is now the danger of a curtailment of supply to non-essentials such as pleasure cars.

The assistance of the public, therefore, is imperative. Until lately, gasoline has been abundant, and its lavish and extravagant use has been possible. That time is past.

Buy as little gasoline as possible.
 Use what you must—Waste none.

SEATTLE AGAINST TIME CHANGE

(By Associated Press.)

SEATTLE, April 10.—No daylight saving ordinance will be presented to the city council. Councilman Phillip Tindall, who had prepared an ordinance at the request of a number of Seattle residents said today that investigation showed a preponderance of sentiment against moving clocks ahead during the summer. The vote in Tacoma Wednesday, when the people rejected the plan by a large majority was a fair indication of sentiment in this section, he declared.

PREMIER GOING TO ITALY.

(By Associated Press.)

LONDON, April 10.—David Lloyd George, the British prime minister, will leave for San Remo, Italy, next Saturday for the coming session of the peace conference. Mr. Lloyd George will travel by boat to Marseilles. Karl Gurzon, the British foreign secretary, and Viscount Chinda, Japanese ambassador to Great Britain will proceed overland to Marseilles.

Lynchings occurred in all but five states in the Union between 1889 and 1918.
