

ECONOMY IS WHAT PAYS YOU, NOT WHAT YOU Pay

This Spring don't put your faith in claims battered only with sugar-coated phrases—put your faith only in merchandise buttressed by reputation. Come to Pendleton's Greatest Department Store, where it pays to trade. Every article is guaranteed.

You Can Economize on your Spring Clothes

That's not as difficult as it sounds. Real economy depends not so much on the price you pay as on the value you get for your money. That's the reason Hart Schaffner & Marx clothes are always the most economical you can buy.

The all-wool fabrics in them; the good, strong tailoring and careful designing, are certain to give you long wear. The new spring models will give you more than that; they'll give you the liveliest styles you ever saw besides. They're splendid values, every one of them.

THEY HIT THE SPOT

D. McMillen, Volunteer Fireman's Home, Hudson, N. Y., writes: "My back pained me so I could not sit down to read or write with comfort; I could not sleep at night for constant pain, and when I walked I was in great misery. I tried several remedies, but I did not do me any good. After taking 2 bottles of Foley Kidney Pills my back and side are completely cured. They are like a stream of water played on a fire by firemen. They hit the spot, put out the fire and drove the pain." They relieve kidney trouble and bladder ailments.

DIFFERENT KINDS OF COUGHS

Bad colds lead to different kinds of coughs. There is a "dry cough," a "winter cough," a gripple cough, bronchial cough, asthmatic cough, and of course, the racking, painful cough to raise choking phlegm. Foley's Honey and Tar gives quick relief in all cases. T. J. McCall, Athens, O., writes: "We used Foley's Honey and Tar in our home for several years and find it almost invaluable for the cure of coughs and colds, and especially for croup with our children."—Sold everywhere.

The students saw every process in the making of flour and had an opportunity to study the various uses of electricity in the mill. The wide use made of machinery and the absolute cleanliness of the mill impressed the students very favorably. Another class of science students will take the tour soon. A trip through the Pendleton Woolen Mills and a study of a local doctor's X-Ray machine is being planned by Mr. Cramer. On Saturday, the Biology classes will go to Walks Walla to see the radium exhibit at Whitman college.
