The Cold That Hangs On

This is No. 5 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's Vapo-Rub may be of value in this condition.

A cold is simply an inflammation of some part of the air passages—throat, larynx or bronchial tubes—just like a sore is an inflammation of the skin. A long continued cold means constant inflammation and this constant inflammation frequently weakens the air passages so that they become an easy point of attack for invading germs of more serious diseases. A "cold that hangs on," therefore, is simply nature's "red flag" indicating that there is "trouble below," and this warning should never be neglected.

Nightly applications of Vick's VapoRub will aid nature to clear up that inflammation. Because Vick's acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots

"OLD TOMORROW"

(By Frank L. Stanton.)

Old tomorrow, he says says he: "You've got to look for your light to me! I'm coming on, or to bring the day That'll sweep yer troubles so far away. They'll know the track where they reach an' them An' never no more will all back home! I'll kill yer care, an' I'll broom yer sorrow!"

Says Old Tomorrow:

But I says: "You've been talkin' jes' that way A thousand years 'fore the world got gray. An' what you a-wantin' you to know Is—'I'm makin' the light with the 'xit up an' go! An' the work that a feller is doin' Today Is better for sweepin' his troubles away! Come on with yer light—but it won't do to borrow From Old Tomorrow."

SOUTH AFRICAN NATIONALISM

REPORTS from South Africa show a growth of the nationalist sentiment as opposed to the pro British policy. In a recent election the nationalists increased their strength from 27 to 43 seats in the house of assembly.

During the progress of the war the South African Union was pictured as giving loyal support to the empire, along with India, Australia and Canada. It appears now that the conduct of the Nationalists, at least, was so "markedly anti-British as to have amounted to pro Germanism." Opposition to the government is explained in the inherent lack of affection of the Dutch for Great Britain, but it is declared that President Wilson's championship of self-determination has given a marked impetus to the separatist movement.

The independence of the Transvaal republic and the Orange Free State was extinguished in 1902, after a remarkable contest of two years against overwhelming odds of British soldiers, and they became British colonies. In 1909 they were constituted a "colonial nation" within the empire, comprising the provinces of Cape of Good Hope, Transvaal, Orange Free State and Natal. The central government consists of a governor-general appointed by the crown an executive council, a senate of 40 members, eight from each province and eight appointed by the governor-general, serving for 10 years, and a house of assembly consisting of 121 members, of whom the Cape of Good Hope elects 51, Transvaal 36, Orange Free State 17 and Natal 17. The house of assembly has the power of originating revenue bills, but only such as are previously recommended by the governor-general. As to all legislation, the governor-general, in the name of the king, has a veto.

If nationalist sentiment continues its growth at the same rapid pace it has maintained since the last election, held in 1915, it will easily control the house five years hence. This is not a pleasant prospect for British statesmen to contemplate.

BANKING AND CREDIT OUTLOOK IMPROVES

WHILE the situation of national, and, it should be added, of state finance is thus not very satisfactory there has been an unmistakable improvement in the banking and credit outlook during the past week or more. A better ratio of reserves to liabilities in the federal reserve system was reported at the opening of the week, and even though the favorable change in percentages was small, analysis of the statement showed that there had been a decrease in war paper and that an advance in bona fide commercial accommodation, which seemed to have placed a greater strain upon the federal reserve system, had been due to legitimate spring demands. Liquidation is undoubtedly proceeding in those lines of paper to which objection has been expressed by the banking authorities and the outlook is correspondingly more encouraging. Meanwhile the receipt during the week of two further installments of gold, each amounting to \$10,000,000 in round numbers, has brought the total importations on this movement up to \$40,000,000, with at least \$10,000,000 more in sight for early importation. The prediction that the total amount to be received will amount to \$100,000,000 or \$150,000,000 seems in a fair way to be verified. All this transference of gold has gone into the federal reserve vaults and has correspondingly strengthened the system in cash percentage. Some exportations to South America which are looked for in the near future will reduce this net gain slightly, but the reduction is not likely to be very great. Coincident with the improvement in gold holdings there has gone a reduction in the call rate, which, as was predicted some time ago, carried it down to 6 per cent and kept it throughout the week fairly steadily fixed at that figure. Supplies of money have been abundant, notwithstanding that time funds have shown no particular improvement and are still scanty. The influence of the Phelan bill giving the federal reserve board larger powers over rediscount sales is still an uncertain factor.

Notwithstanding this condition, the money outlook has been very much more satisfactory from the investment standpoint. The fact that strong financial interests have decided to place an issue of \$50,000,000 of Pennsylvania railroad bonds, and that other smaller issues have been successfully distributed, shows what conservative judges think of the market outlook. All such offerings are now bearing what would have been considered some time ago abnormally high rates, but they are not too high when compared with the possible earnings of capital in other directions.—Clews Financial Review.

LABOR LEADER WELL PLEASSED WITH CHOICE

CHICAGO, April 13.—News of the appointment of the railroad labor board was greeted with satisfaction by railroad labor leaders here today.

"The appointment of the membership will have a very effective and beneficial result throughout the country," said President Heberling of the Switchmen's Union of North America. "It will have a tendency to stop the spread of strikes and cause many to return to work."

The "gold cure" business in all its forms has ceased to be a business with the coming of prohibition.

"The rubber stamp is hard to eliminate. The British keep a king and we keep an electoral college."—The Independent (N. Y.)

Printing accounts of murders in large type and under glaring headlines will be a violation of law in New York State if a proposed bill is passed. Many reputable papers have pursued for years the policy of "playing down" crime news.

Shoes Wear Longer

When you walk in comfort, so do stockings. A package of Allen's Foot-Ease, the antiseptic powder to shake into the shoes and sprinkle in the foot-bath, gives you that "old shoe" comfort and saves wear. Allen's Foot-Ease makes tight or new shoes feel easy. Ladies can wear shoes one size smaller by shaking some Allen's Foot-Ease in each shoe in the morning. Sold everywhere.

Merit That Makes Mileage

—In Tires for the Smaller Cars

Such extraordinary competence and carefulness as are characteristic of all Goodyear manufacture likewise characterize Goodyear's building of tires for the smaller cars.

Only very unusual experience and endeavor make possible the high relative value built into the 30x3-, 30x3½-, and 31x4-inch Goodyear Tires in our Plant No. 2, the world's largest factory devoted to these sizes.

In addition to the larger sizes Goodyear builds, a daily production averaging 20,000 tires of these smaller sizes alone makes them easily available, regardless of the big demand, to owners of Ford, Chevrolet, Dort, Maxwell, and other cars taking these sizes.

If you are one of these owners, go to the nearest Goodyear Service Station Dealer for these tires, and for Goodyear Heavy Tourist Tubes. He carries a stock.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water-proof bag \$4.50

GOODYEAR

28 YEARS AGO

(From the East Oregonian, April 14, 1892.)

The democratic ticket contains the names of H. J. Taylor, J. M. Stone and M. Toner for representative. T. J. Tweedy is a candidate for county judge, and A. L. Goodson for commissioner. W. J. Parrish is the candidate for sheriff, while Walter M. Pierce is running for county clerk. William Jones is out for the position of treasurer. Other candidates are W. W. Brannin, assessor; D. W. Jar-

A new variety is discovered in California—Richard Diener, who has grown 150 bushels of wheat from 29 pounds of seed on one acre, corn whose ears weigh 2 1-2 pounds each, potatoes of which a single one will feed 15 persons, beans as large as birds' eggs, and chickens twice the normal size.

The population of Washington D. C. is now 437,414 increasing from 321,052 in ten years.

Why Pay the Peddler or Canvasser Twice These Prices?

DR. HESS STOCK TONIC

25 lb. Pail Costs \$2.50
100 lb. Drum Costs \$8.00

Here is another point, Mr. Farmer, we want to emphasize, that in Dr. Hess Stock Tonic is highly concentrated, it goes farther as the small dose quantity proves. It puts your animals in a thriving condition ready for Spring work.
