Walla Walla Wheat Looks Well.

Wheat in the Walla Walla valley is further advanced than in this county and looks very well, Henry Collins, local grain dealer, said today. Nearly all the fields Mr. Collins saw on his trip to Walla Walla yesterday showed the grain to be in good condition. In the Athena-Weston country there have been heavy rains and except for a few places where farmers are reseeding, conditions appear excellent. Not such heavy April rains in years have fallen as during this month.

TWO ACRES FOR CAMP GROUND

(Continued from page 1.)

With coal prices due for an advance, the council decided to advertise for bids now for the winter's supply of fuel. The recorder will advertise for bids at once and there will be about two carloads purchased.

Survey for Play Ground

Another piece of city-owned property in the east end, near the proposed auto camp ground, was recommended for improvement as a childrens' play ground. City Engineer Hayes was asked to survey off both the play ground and auto camp sites. He suggested that he make the dimension and countour surveys and turn over the plans to a landscape gardner to plan a sightly park and camp site. This was taken under advisement by the council.

New street grades in three paving districts on the north side were presented by Mr. Hayes and adopted by the council. They include Blaine street from Wilson to Martin, Garfield from Jackson to Martin, Mark from Matlock to Bush, Perkins from the Mill Race to Raley, and Logan from Mark to Raley.

Will Grade Street

A petition from interested property owners to establish a grade on Jefferson street from Washington to Wilson street was granted. The owners do not contemplate improving the street as it would be too steep for traffic but desire that the grade be fixed to conform with the streets it intersects.

Owing to the extra work which the flu epidemic placed upon him, City Physician H. J. Kavanaugh was granted extra pay of $150. Complaint was made by City Attorney James A. Fee that records of the city are not filed in the vault in any order so that they can be reached easily. The house committee was instructed to work with the city recorder on a system of filing.

The petition of Mrs. Ellen Livermore to have the council define the limits of Washington street cannot be granted, the city attorney said, because that function is one of the courts and not of the council.
