GERMANS IN TAMPICO ARE KEEPING QUIET

BY RALPH H. TURNER
 (United Press Staff Correspondent.)
 TAMPICO, Mexico, April 15.—Two sources of trouble confronted Allied interests in Tampico during the war. They were the Germans and the I. W. W. At many times it appeared they were one and the same. Perleum was vital to the Allies' conduct of the war. German agents strove with radicalism as a medium to obstruct the flow of oil through allied channels.
 All that is history, but it is interesting today to observe the present status of the Germans and their former ally; to note how they have fared since the capitulation on the western front.
 The Germans are still here, but the support of an imperial government has vanished and with it has gone a considerable amount of the Teuton self-assurance. All the Germans can hope to do now—all they are trying to do—is to regain a bit of their old trade and their old prestige.
 The I. W. W. also is here. It is not always referred to with that designation. It is sometimes called the Communist Party, or the Left Wing or Bolshevism. Under any name, however, its aims are the same. But the German backing has deserted the I. W. W., and today the movement is neither German nor Mexican. Rather it is an international organization, with a Russian-American playing the leading role.
 The German colony in Tampico, of its leaders, have just gained control of one of the local newspapers. If the Germans achieve their aims through this newspaper their conquest will indeed have been cheaply bought, for it is reliably reported that they are paying but 300 pesos (\$150) monthly to preach the story of the New German republic. Still, the Germans are not asking a whole lot for their money. Their ambitions are more modest than in the old days.
 The Germans seek to gain the publication of news favorable to the Fatherland, to impress upon the Mexicans that some day there will be a German trade revival and to record Germany's progress as a democracy; in short, to recover German prestige to any extent possible. But the Germans as a trade menace, or any other kind of menace, are beings of the past.
Handle American Goods
 One more year of the war and German trade probably would have been wholly ruined. As it was, the enemy commerce was shattered beyond recognition and the come-back will not be executed quickly. The Germans never entered the field of oil exploitation, but they were supreme in the hardware business. As bankers, stenograph agents and customs brokers they held further commercial advantages. What Germans are doing business here now are handling American goods.
 There is a strike on in Tampico now, a strike of mechanics, employed by the oil companies, who are demanding an increase in wages which averages about 100 per cent. That recalls Germany's old friend, the I. W. W., spurred by Germany today because the hour of service is past.

Drive this New
CHALMERS
to Estimate Its Worth

WHEN you have driven this new Chalmers you will appreciate its marvellous ease of action, its soothing absence of vibration, its great energy—results directly traceable to the Hot Spot and Ram's-horn.

Hot Spot is an ingenious device that occupies about six square inches. It receives from the carburetor gasoline still in a raw, heavy state and breaks it up into infinitesimal particles.

Then the gasoline, now a "cloud" of dry gas, is rushed into the cylinders via Ram's-horn (which has no sharp corners to impede the progress).

Thus the cylinders get the kind of "food" they should have, and you get a snap, a "kick" from "gas" that you haven't seen in many a day.

Some things you don't get, too, and they are burned bearings, scored cylinders, frequently fouled spark plugs—all traceable to inferior "gas" which most engines cannot "digest."

Ride in this new Chalmers and you, too, will say: "Chalmers is one of the few great cars of the world."

From the Limousine
 "That woman who just passed in a limousine bowed with marked cordiality," remarked Mr. Jibway.
 "So she did, the cat!" snapped Mrs. Jibway.
 "My dear."
 "That was Mrs. Dibble. I've been dodging her ever since I hear she had bought a car. She wouldn't have missed catching me out on foot for a diamond necklace."—Pittsburg Leader.

MINES NEAR ANCHORAGE CANNOT MEET DEMANDS

(By Associated Press.)
 ANCHORAGE, Alaska, April 15.—Two coal mines operated by the government at Eka and Chislicoon on the railroad near here, were closed yesterday when the Alaska engineering commission, which manages them, announced it could not meet wage demands of the miners.
 Enough coal is on hand, William Gerig, assistant chief engineer of the commission, announced to supply Alaska towns until the navy department follows its plan of taking over and operating the mines.
 The men wanted a wage increase of 10 per cent above the Washington scale, which they said was raised recently. Gerig said he had received no official advice that an increase had been granted in Washington. Both Gerig and the miners declared a "red" element caused the strike. About 200 men are employed at the mines.

"Y. W." MEETS TO TALK POST WAR PROBLEMS

CLEVELAND, April 15.—Post-war problems and the social and economic questions engendered during the period of the war were under consideration at the sixth annual convention of Young Women's Christian Association here yesterday.
 Fully 2,000 organization leaders, secretaries, members and educators were expected to participate in the general debates and scores of sectional

 Only Fifty Two Cents
 Each Church Member
 52¢
 — and for 34 Years Work

THAT is the kind of increase in salary the minister has received. His living expenses have risen just as fast and as far as yours.

But he is paid on the average just 52 cents more per church member than he was paid 34 years ago.

The Minister Never Fails You

Every officer of the Government with a war message to deliver appealed to the ministers first of all. But 80% of the ministers receive less income than government economists figure as a minimum for the support of an average family.

When hospitals need money they enlist the support of the ministers—and receive it. But when sickness visits the minister or the members of his family they must be treated in a charity ward. His pay is less than a day laborer's.

We Pay Him Half the Wages of a Mechanic

8 out of every 10 ministers receive less than \$20 a week—about half the pay of a mechanic. And of these pitifully inadequate salaries, how much do you contribute? Nothing if you are outside the church; an average of less than 3c a day if you are a church member.

All of us share in the benefits of Christian ministers to the community. They marry us; bury us; baptize our children; visit us when we are sick. In their hands is the spiritual training of the youth.

We Are All Profiteers at Their Expense

Part of the Interchurch World program is this—a living wage for every minister of Jesus Christ; an efficient plant and a chance to do a big man's job. If you want better preachers, help to pay the preachers better. It's the best investment for your community—and for your children—that you can make.
