FRANCO-BRITISH CHASM PROMISES TO WIDEN

PARIS, April 21.—Dispatches from San Remo indicate that the breach between Britain and France, brought about by divergent views over enforcement of the treaty of Versailles, may be widened during the present conference of the council of premiers.

Some correspondents there understood that premiers Lloyd-George and Nitti propose to demand that Germany fulfill the financial clauses of the treaty immediately. This demand would be accompained by certain concessions, including reduction of the allied occupation zone, although the reduced area would be held longer than the time originally fixed. It is understood the French premier opposes the concessions and will hold out for strict enforcement of the treaty as written.

AUSTRIAN ANNEXATION NOT YET CONSIDERED

(By United Press.)

San Remo, April 21.—The question of Austrian annexation to Germany has not been discussed by the council of premiers, but probably will be considered soon, Ctctorio Scialoia, Italian foreign minister, said today. Austria, it is known, was anxious to press the proposed annexation. Scialoia denied a Vienna report that an alliance between Germany, Italy and Austria has been contemplated.

BOND EXCHANGE DATE ANNOUNCED AS MAY 1

Bonds of the first, second and third liberty loans bearing interest coupons to the maturity date of the bonds, will be available on and after May 1, according to notice just received by local banks. Persons holding bonds of these issues may present them to their banker on or after May 1 for exchange for the permanent bonds.

The issues which may be exchanged include the first 4s, first 4 1-4s, first 4 1-4s (second conversion,) second 4s, second 4 1-4s and third 4 1-4s. The fourth loan bonds are presentable for exchange on October 15, while the victory notes and first 3 1-2s were issued in permanent form.

Persons who hold first and second loan 4s will receive a special interest coupon for the last six months, as these bonds were called in for conversion to 4 1-4 per cent bonds in November and December. Those who had their 4 per cent bonds converted for temporary 4 1-4 per cent bonds and have receipts for them, may present their receipts to their banker.

Owing to delays in the printing department at Washington, these bonds were delayed in arrival on March 15 and the date of exchange has now been fixed as May 1. Banks will attend to the conversions without cost to holders of the bonds.
