BAD BREATH

Dr. Edwards' Olive Tablets Get to the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do their work without any of the dangerous calomel does without any of the bad after effects.

All the benefits of castor, sennega, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects. Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c

er. He becomes a railroad magnate feared and respected by all. However, his heart is empty. He had married Mary Virginia Lee, but almost immediately they had entered into an agreement to live apart. Separation proves to both that the love fervently, madly. There is Eleanor, however, who stands between them. She is the power behind the railroad man's throne. Finally he throws down the gauntlet to her. He has come to realize that it is the unsophisticated woman, the "Just A Wife" whom he must have to know happiness. The cast and direction in this first National Theatres release are noteworthy in excellence and finish.

CHILDREN ACT IN FARRAR PICTURE

In the new Geraldine Farrar picture, "The World and Its Woman," which Goldwyn will present at the Arcade theatre, beginning Thursday, two children play important roles during the first part of the picture. They present the hero and the heroine in the days of their childhood, and show their intuitive attraction for one another long before circumstances bring them together later in life.

The boy who plays the young prince is handsome little Francis Marion. He conveys, in his stiff and courteous bearing toward the little daughter of his father's chief engineer, the training for aristocratic life which he is destined to pursue. He bows like a courtier upon meeting the little girl, but gradually unbends and plays at reading the story of Cinderella with her. Later when he is called away, his haughty manner returns, and he again bows in his most princely manner.

May Graef, one of the most talented child actresses in America today, plays the role of Marcia Warren as a child. Her dark-eyed beauty and her uncanny grasp of the demands of her role, make the beholder forget that little May is only a child. Her yearning for her little companion, her faith in the Cinderella story, her American assertiveness when the young prince tells her he cannot marry her, and her retort that Americans can do anything, are perfectly done. These two children carry the weight of the scene with as much finish as any of the older actors and actresses in the play. Not many years hence, theirs will be names to be read in headlines.
