WORLD WHEAT CROP WILL BE LIGHT, PRICE HIGH IS PREDICTION

(By United Press)
WASHINGTON, April 22.—Broad prices will be increased again following rising flour and wheat futures, government reports indicate today. Wheat, now selling far above the government guaranteed price, has not reached its high level, according to the crop estimate bureau, of the department of agriculture.

The 1920 crop will be short not only in the United States, but throughout the world, said Statistiean Murray. This will affect prices inside the United States. It spells the reversal of reductions, and perhaps further advances in price.

Other signs also point to a rising market. One is the dissolution of the United States grain corporation, June 30. It has power to control prices. Many farmers contend it deliberately held down prices, and that dissolution would bring a sudden increase.

Two factors, however, may tend to keep prices at their present level. These are:

- (1) Fluctuation of foreign exchange rates which will restrict foreign buying of American wheat.
- (2) A big carry-over of 1919 wheat announced today by the agricultural department.

HURT SKETCHED MAP OF ROUTES TO VALLEY

(By Associated Press)
LOS ANGELES, Cal., April 22.—Investigations were conducted in San Diego and Imperial counties yesterday by officers seeking information about women whom James H. Hunt, now a patient in the Los Angeles county hospital, is alleged to have married.

Three Los Angeles deputy sheriffs were in San Diego county as the result of finding a paper among Hunt's effects on which was sketched a map showing several routes leading to Borrego valley, said to be along the San Diego-Imperial county line, according to word received here. The officers were waiting for a rancher from the valley to arrive in San Diego, who, it was stated, was expected to give information about a trip Hunt is alleged to have made to his neighbor.

New England Candidate Who May Be the Next President of D. A. R.

Mrs. George Maynard Minor, wife of a prominent Waterbury, Conn., physician, is the only avowed candidate for the presidency of the Daughters of the American Revolution and it is believed that she will be elected at the congress which opens on April 13 in Washington D. C. if Mrs. Minor is chosen she will be the tenth president of the organization and the first to be elected from New England. Mrs. George Thatcher Guernsey is now president.

"Of course it is," replied his little sister Hazel. "How can the women marry when there are no men in the place?"

WANTED GERMANS TO BE IN ON CONFERENCE

(By Associated Press)
PARIS, April 22.—The San Remo correspondent to the Matin says he has been informed that propositions of Premier Nitti and Lloyd-George on the question of dealing with Germany contained in the suggestion that Germany be invited to participate in the conference. However, adds the correspondent, Premier Millerand ultimately convinced the Italian and British premiers that they are wrong and it was decided to confine discussion of the German problem to the supreme council.
