### American Girl Whose Romance with Baronet Is Revealed by Suit

Speculation over a mysterious \$500,000 damage suit filed in New York against Sir Hugo Cuniffe-Owen, British baronet and tobacco man said to be worth \$40,000,000, by Marvella C. Brice, better known as Monte Brice, says write, also of New York, has been increased by the revelation that Lady Cuniffe-Owen, the young American wife of Sir Hugo and formerly the wife of Monte Brice, obtained a divorce on Nov. 7, 1918, only seven weeks before she married Sir Hugo. Combined with this interesting rumormongering as to the exact nature of Brice's damage suit, is comment on the brilliant social progress of Lady Cuniffe-Owen. She was Miss Helen Elizabeth Oliver of Washington, Pa. When she was seventeen years old she went to New York and was first a cabaret singer and later a movie actress. She married Brice in 1914. It is understood that Sir Hugo gave her \$4,000,000 and a \$50,000 pearl necklace as bridal presents.

### Whooping Cough

In this disease it is important that the cough be kept loose and expectation easy. This is best accomplished by giving Chamberlain's Cough Remedy. That preparation also tends to liquefy the tough mucus, making it easier to expectorate and renders the fits of coughing less frequent and less severe. It has been used in many epidemics of this disease with the best results. It contains no codeine or other narcotic.

His Stomach Trouble Over  
John H. Barker, Battle Creek, Mich. writes "I was troubled with heartburn, indigestion and liver complaint until I began using Chamberlain's Tablets, then my trouble was over." If you are troubled with indigestion or constipation give them a trial. They will do you good.

### DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back hurts or Bladder bothers, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.  
Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; to neutralize the acids in urines so it no longer is a source of irritation, thus ending bladder weakness.  
Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.
