## STOCK GRAZING FEES

Grazing fees for the Umatilia National Forest will not be increased this year, according to information given today by J. C. Kuhns, supervisor of the Umatilia and Wenaha forests. The rate for sheep for the regular season. June 15 to October 15, will remain at 12 cents per head, while the rate for cattle for the regular season. May 1 to October 31, which is 72 cents per head, will continue, as will the rate of 20 cents per head for horses.

Mr. Kuhns says that while for 1920 there was no increase in fees, there was considerable discussion in the House Committee on Agriculture concerning them, and an effort was made to have the grazing charges on National Forests readjusted upon the basis of the commercial rates charged for pasturage upon lands of similar character, taking into account the advantages and disadvantages of the respective areas.

Came up for consideration in the
House the provision for making such

point of order. A number of amendments offered in the House, with practically the same object in view, were

the corn belt and the East," according
to Mr. Kuhns.

"When the Agricultural appropriation bill, as it passed the House, came

Committee on Agriculture and Forestry, a motion was made and carried
that all provisions in the bill for a reappraisal of grazing fees be climinated," said Mr. Kuhns.

"For this year, therefore," states
Mr. Kinns, "the fees are the same
