Quantity buying is a powerful factor in our selling of good clothes at the lowest possible levels. The clothing departments of our 297 stores will require close to 100,000 suits to satisfy the needs of their customers this year. Every suit is personally selected by a member of our buying staff right at the shops, thereby getting the benefit of the eliminated selling expense to the maker. All our salesmen work hard on moderate salaries, avoiding every unnecessary expense to build up the surplus in which they eventually share by becoming partners in this great organization.

Selling for cash only and the saving of delivery expense are further reasons why we sell for less. Your time will be well spent investigating the values we offer in good clothes for men and young men at \$24.75 to \$57.50.

## You Can't Rub It Away; Rheumatism is in the Blood

Liniments Will Never Cure. If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will!

Do not try to rub the pain away. Try the sensible plan of finding the cause of the pain, and go after that. Remove the cause, and you remove the pain. You will never be rid of Rheumatism until you cleanse your blood of the germs that cause the disease. S. S. S. has never had an equal as a blood purifier and scores of sufferers say that it has cleansed their blood of Rheumatism, and removed all trace of the disease from their system.

## Acason Trucks

Acason Motor Trucks have never been built to meet a popular price. Quality construction instead of quantity production has always been the basis of Acason manufacture, and personal interest in the welfare of every Acason owner is the dominant thought of the entire Acason organization.

The selection of every unit is based upon its proven ability and reputation for service. The perfect balance and combination of the units used have been developed from the "Owner First" point of view.

It is due to this fact that the new series Acason Motor Trucks are today "The Most Powerful Trucks in America."
