What Do Your Clothes Cost You?

When anyone asks you that question you probably think of the price you paid.

That isn't the real cost. The real cost is the price divided by the number of days you wear the clothes.

That's why we say your clothes will cost you less if you buy them here.

Not only are the prices we ask considerably lower than other first-class stores, but a nationwide institution stands behind every sale.

Because we sell merchandise at a lower price than any other retail organization in America does not mean that you are buying less service here. There are no reservations, mental or otherwise. If for any reason you do not get from Penney merchandise the service you have a right to expect for the price you paid, all we ask is a chance to make good to your entire satisfaction.

Several new and attractive suit numbers were received last week, better come in and look them over tomorrow. Priced at
