WITH SWEET SONG AND STORY.

(By Frank L. Stanton.)

Give sorrow wide margin—give sighing a rest;  
The world—or, believe it—is doing her best!  
With sweet song and story  
She's rolling to glory,  
With blossoms of Love on her beautiful breast!

There are cares for the years—there are hopes—there are fears;  
But the sunshine of heaven shines bright through our tears;  
God's love is still o'er us—  
And bright in his heaven his morning appears!

**A GUARANTEED WHEAT PRICE.**

CONTINUANCE of the government influence in wheat price fixing looms for another year, dispatches in the news from Washington say. The wheat corporation sees danger at this time in throwing the wheat crop of the nation upon the open market to become the prey of the speculator or wheat baron. Government control was requested continued by Umatilla county wheat growers and the farm bureau in resolutions adopted several weeks ago.

Conditions have not yet stabilized sufficiently to permit wheat being placed upon the market at anybody's price. Government regulation of the minimum wheat price worked out successfully and its retention is desired by most of the growers. With the knowledge that they are to get a certain minimum price, growers feel more secure in going ahead with their plans for the coming year.

Along the line of wheat and wheat prices, it was suggested in a recent editorial in the Chicago Daily News by well known wheat dealers, that the wheat pit be not reopened even if government control is allowed to end on June 1, as now provided for. The speculators who made their mark in the old days see danger in a return to conditions approximating the old while the country and the civilized world are still readjusting themselves. News of the retention of a government price guarantee would be welcome in Umatilla county and no doubt, the country at large.

**FOR A STITCH IN TIME**

THE old mother who insisted upon darning the stockings at first hint of a hole was the real originator of the thrift movement. She found it more economical to sew up first causes than to patch up final ruins.

The thriftiest procedure in life is the prevention of deterioration. If a thing is worth while, it is worth keeping up.

In Oregon, the school system is an example of the need of a "stitch in time." Without immediate help, they must and will within a year suffer a great disorganization and curtailment.

Hundreds and hundreds of students must be turned away from our colleges. Their spirit of enthusiasm and progress must flicker and begin to go out; their equipment must break down still further; the standards they have built up in recent years must suffer.

Then after a few years, when the educational disaster has become fully apparent, the citizens of the state will be aroused by the loss and will spend huge sums to get back the ground.

On May 21, each voter of Oregon has a chance to put in a "stitch in time" by voting for the Higher Educational Tax Act and the elementary school tax.

**BONDS ARE ATTRACTIVE**

FOR persons who have capital seeking investment at the present time, bonds present a very attractive as well as safe means. The situation as summed up by Clews' Financial Review, of New York, is briefly, as follows:

Not only stocks but bonds have now been reduced to a point at which they offer very handsome investment yields. Bond indexes for the past month show a record low figure. Liberty bonds have been exceptionally low in price and what is true of them is true in similar degree of the best railroad and industrial issues. The effect of recent large corporate financing at very high rates has been that of materially raising the market value of money.

Perhaps there has not been a time in many years at which investments could be made with so striking a combination of protection and large yield as at present. This is true not only of bonds but it is also obviously true of some of the better grades of stock issues. The tremendous demand for capital which is shown in the enormous output of new securities which has occurred during the past month and earlier creates practically a competitive market for savings. In one way this situation tends to prevent the early advance of bonds and conservative stocks to higher values, but it also emphasizes the worth of well selected issues as compared with those of less certain yield, in view of the very high returns which can be obtained even on extremely conservative investments.

One effect of this condition of affairs should be to stimulate the outside public in its purchases and during the past week there has been considerable evidence of such a change, much investment buying being reported.

**SIXTY FUNERALS A DAY IS AVERAGE IN POLAND**

There are sixty or seventy funerals a day in Warsaw, Poland, according to Miss Lois Downs, a Y. W. C. A. secretary, recently returned to the U. S. after six months of investigation into the conditions among women and girls in Poland. "And Warsaw is the most normal of the Polish cities," reports Miss Downs. "In some places the death rate is fifty per cent. Among the laboring classes, children have died in such numbers that there are almost none left between the ages of four and five years. When I asked why there were no girls, I was told they had been killed long ago for food. Though food is being sent into Poland from other countries, there is only half as much as is needed for bare existence.

"There is a scarcity of living accommodations as well as of food and clothing. During the war many buildings were destroyed. The men are still in the army and much of the building is being done by women—yet women accustomed to manual

**BOOZE SMUGGLED FROM CANADA IS TAKEN AT SIDNEY**

(By Associated Press.)  
SIDNEY, Mont., May 14.—Four men were arrested and whisky valued at \$12,999 was confiscated by Sheriff Fred D. Sullivan and two deputies today. The liquor was being smuggled in from Canada in three automobiles, according to the sheriff. The men arrested have been turned over to the federal authorities.

**WANTS \$100,000**

MISS MAUD L. CEBALLOS

NEW YORK—Miss Maud L. Ceballos, known on the stage as Maud Diamond, wants \$100,000 heart balm from Clifford R. Hendrix, former New York stock broker. She claims they became engaged last August, that she has been supporting him, in good measure, since that time, and that he refused to marry her, in February, because of her inability to bear children.

**BANDITS AT SPOKANE ESCAPE WITH \$10,000**

(By Associated Press.)  
SPOKANE, May 14.—Police and railroad special agents are today seeking to learn the identity of robbers who stole \$10,000 in currency, from the cashier's cage of the Great Northern express station here last night at a time when a score of railway and express employees were about the station, and made their escape.

The robbers struck down, and beat up H. A. Peterson, express agent.

Leave \$6000 Behind.  
(By Associated Press.)  
SPOKANE, May 14.—Kicking Agent H. A. Peterson into unconsciousness, two thugs looted the local Great Northern express office of over \$10,000 about midnight last night.

Peterson was found lying on the floor early today surrounded by about \$6000, mostly in silver, which the thieves left in their hurry to escape.

**HIPPO ESSAYS WIN TICKETS FOR CIRCUS**

Prize Winners in Contest  
Lois Gornall, first.  
Jack Boynton, second.  
Edward Edmund, third.  
Lewis Thorn, fourth.

Four Pendleton children won the prizes in the prize essay contest, conducted by the A. G. Barnes circus. The essays had as their theme the hippopotamus and all showed careful work and knowledge of the subject.

The prizes were four reserved seat tickets as first prize, with two reserved seat tickets for each of the other winners.

Many a woman's makeup prevents her from holding the mirror up to nature.

**Spent Money Foolishly.**

"I have been a great sufferer from stomach trouble and gall stones. No one knows the pains I have suffered. Since taking the first dose of May's Wonderful Remedy am feeling fine, can work all day and eat anything I want! Have no more distress or palpitation of the heart from gas on my stomach. I have spent a great deal of money on doctors and medicine but got nothing to help me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, indigestion, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water or before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; it also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus guarding serious kidney disease.

**LESS MEAT IF BACK AND KIDNEYS HURT**

Take a glass of Salts to flush Kidneys if Bladder bothers you.

**Regular Habits Produce a Beautiful Complexion**

Daily elimination rids the system of poisons. Women should realize that!

MANY women complain daily of their complexion, of their headaches and general ill health, little realizing that the trouble is constipation. Women, too, are much more subject to such congestion than men, and much more careless of it. The result is seen in lusterless, weary, even, in pallor, pimply complexion, in lassitude, bad breath, and in that word so often used, "indisposed."

At the first sign of these symptoms the wise woman will take a laxative, and will see that the young girl and others in her care do likewise. Dr. Caldwell's Syrup Pepsin is the favorite with thousands of women because it is mild and gentle in its action and in the end trains the stomach and bowel muscles to do their work naturally without the aid of medicine.

This combination of simple laxative herbs with pepsin, which can be bought at any drug store, is also a very sterling first-aid in colds, fevers and other sudden ills

that make it advisable to always have a bottle in the home. It is free from narcotics and safe for the tiniest baby.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 512 Washington St., Monticello, Illinois.

**INERTIA TO BE FOUGHT IN LEGION'S CAMPAIGN**

INDIANAPOLIS, May 14.—Members of the American Legion, who will conduct a nation-wide campaign for new members, May 17-22, believe that their chief enemy will be none other than old General Inertia.

The Legion now has approximately one and a half million members and seeks to get a million more.

Pushed throughout the country, of which there are now about 2500, reports that their chief obstacle in getting men to join has been mere inertia. Thousands of men are convinced of the desirability of Legion membership and are in hearty accord with its principles. But they have failed to "shove that tarpaulin" and become active members. It is believed a national membership push will supply the additional impetus that will cause a majority of these victims of inertia to join the Legion.

The Legion has obtained from congress an increase of base pay for the disabled from \$10 to \$12 a month, of which there are now about 2500, reports that their chief obstacle in getting men to join has been mere inertia. Thousands of men are convinced of the desirability of Legion membership and are in hearty accord with its principles. But they have failed to "shove that tarpaulin" and become active members.
