Pharaoh's Dream

Pharaoh dreamed of seven years of plenty to be followed by seven years of famine, so he saved during the fat years to provide for the lean ones.

Individuals as well as nations have these fat and lean years.

Save money, save all you can, not only to provide for lean years but also to have some of the comforts of life.

Corn Market Is Given

New Strength for Day.

CHICAGO, May 15.—Pessimism regarding the outlook for improved transportation together with active export demand for breadstuffs gave decided strength to the corn market today. Prices went to the topmost point yet this season. The finish was unsettled, 1 3/4-4 1/2 to 2 7/8 net higher with July \$1.77 7/8 to \$1.78 1/8 and September \$1.84 1/4 to \$1.85 3/8. Oats gained 3/4-1 1/2 to 1 1/2. In provision the outcome ranged from a 10c decline to a 25c advance.

Corn traders appeared to be much impressed by statements of leading railway officials that there was little prospect of better railway traffic conditions and that grain prices therefore would remain high.

It was argued that the difficulties of the movement of corn to terminal markets would be fully as great in

Good Sign Is Seen in Business Readjustment.

NEW YORK, May 15.—Dun's today says:

The business developments of recent weeks have not been unexpected, indications of impending economic readjustment having some time ago made themselves manifest, and the tendency toward lower commodity prices, if attended by some degree of unsettlement, marks a wholesome aspect. Absentment of the notable commercial activity of previous months has been hastened by the serious congestion in transportation and by the backward season, but slackening of demands in some quarters is mainly the outgrowth of consumers' increasing resistance to high prices and their greater discrimination in buying.

Financial planes, moreover, are a contributing factor in the movement toward price reaction, the pressure of credit contraction and the opposition to speculative excess influence different interests and there is more of the spirit of conservatism and caution present than has been witnessed in a long period.

Cattle Heavy With

Beef Steers Weak.

(By Associated Press.)

KANSAS CITY, Mo., May 15.—Cattle, receipts 1700 heavy; beef steers weak; all other classes generally steady; yearlings and heavy steers 12.75; few cows 11.00; best heifers 11.75; top bulls 10.00; few weaners to outsiders 13.00.
Sheep, receipts 100; sheep and lambs nominally steady; goats 25c lower; 7.50 head, 95 pounds. Texas goats 7.50.

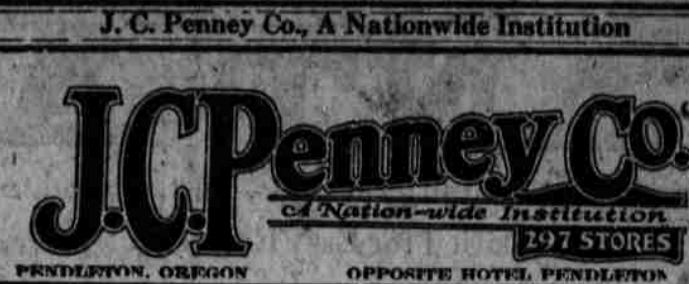

Full Day on Exchange

With Prices Steady.

NEW YORK, May 15.—Business on the stock exchange today was dull to the point of stagnation. Prices were comparatively steady on the market, for the first time in several weeks showing signs of a sold out condition. Monetary conditions in the local market were not materially changed, although call money rose to 12 per cent the week's maximum, after opening at 8 per cent.

Rails gave a better account of themselves than any other class of stocks, especially Texas and Pacific and several other issues of the western and southwestern divisions. Final prices for steels, equipments, oils and shippings were rather mixed, but higher in the main. Total sales 600,000 shares.

In point of interest, trading in stocks was at all times overshadowed by the weakness of Liberty bonds and Victory notes. Almost without exception those issues continued to fall to lowest quotations in their history. Foreign bonds also lost some of their recent advance, while domestic rails and industrials were irregular. Total sales (par value) aggregated \$16,125,000.

New Tricollette Smocks \$9.90

Happy indeed will be the woman who becomes the proud possessor of one of these charming new smocks, not only on account of their style and beauty, but because of the service they will give and the saving she is able to make.

Colors are Copen, Rose, Gold, Liberty Red and Black. No two alike. Some have belted backs, while others are embellished with long sashes, all have short sleeves. The popular yarn embroidery plays a prominent part in their attractiveness. A few numbers are displayed in the south island window, see these everyday values at

SUMMER COMFORT IS IN THE NEW CORSETS.

The outdoor life of summer calls for careful as well as comfortable corseting. Low-busted corsets with well-boned skirts of light weight fabric make comfort possible with no sacrifice of the style so necessary under straight chemise frocks.

It is well to attend to one's corset needs early in the summer, thereby having the comfort of frequent changes during warm weather.

A HOME FOR YOUR CAR

and all that it implies

It makes no difference how honest the effort or how well equipped a concern is, you cannot get service unless the proper service methods are employed.

The human element enters into every transaction, even into the very steel itself. Therefore we argue unless proper methods of handling your service is employed that it will be impossible to get it.

Our plan of touching no car whatsoever but a Chevrolet, Velle or Peerless embodies the paramount features of the ideal service you have been looking for.

We fully realize our service department under exclusive working methods will not be doing the business a wide open shop would, but we figure the exclusive and satisfactory service we will be capable of giving under this method will more than offset this loss and our compensation will be taken care of through the greater number of sales satisfied customers are going to make.

We earnestly solicit your business and expect to fill our obligation in a manner profitable to all concerned.

Under this plan our cars are put to the most rigid test of stability, because if they do not perform up to standard the element of pride in our own goods comes to the front and demand efficiency in the service department, and the same pride and personal interest and welfare that is the natural outcome of a profitable deal manifests itself in the men employed in the shop. The present personal element is enlarged and they realize a reflection on their ability as high class, efficient workmen, if your purchase is not delivering satisfactorily.
