A ROSE SONG.

(By Frank L. Stanton.)

Hangin' round the place to see
 How the garden grows,
 Nellie comes, and brings to me
 Just the sweetest rose.
 (She's a rose herself, you know,
 Roses seem to love her so!)

Bright the loved home-garden shines,
 Honey-bees are humming,
 And the morning-glory vines
 Know when Nellie's coming.
 (Never rose could sweeter be
 Than the rose she gives to me.)

LEGION WEEK

ONE and a half million men and women who wore the uniform of the United States in the great war and now hold membership in the American Legion next week will strive to add another million eligibles to the rolls of the great organization of former service people. In every town where one of the 9500 posts is located the drive for membership will take some form. "Bring in a buddy" is the catch phrase of the campaign.

The legion has not worked, since its inception in France, for the advancement of legion members alone. It has striven to gain for all service men, regardless of affiliation, those things which only by organized effort could be obtained. The federal board for vocational education has been brought to time through revelations of the legion, compensation for injured men has been adjusted, the war risk insurance has been changed so that payments may be made in lump sum as well as in installments.

The bonus bill for those who do not care for other forms of government compensation, as well as the three other types of compensation, are sponsored by the legion. Thousands who will benefit from this activity are not yet enrolled. Many are on the outside because they have not been invited in. The coming week is legion week and Umatilla county will be asked to contribute its share of the million new members.

A BUSINESS PROPOSITION

EXPLORE the injection of politics and a pretended economy campaign into the consideration of the rivers and harbors bill, Senator F. M. Simmons, a member of the commerce committee, asserted in a recent senate speech that a niggardly policy is being pursued in congress toward the improvement of rivers and harbors.

"I hope this is the last river and harbor bill that will have to run the gauntlet of manufactured prejudice and the exigencies of a political campaign," said Senator Simmons. "I protest against the injection of politics into purely business legislation. If it is desired to make a record for economy, there is ample opportunity to cut down expenses without injury but with benefit to the country. It is indefensible to attempt to make a record of economy at the expense of the business interests of the country, its development and its expansion."

Senator Simmons said the comparatively small sum carried in the annual rivers and harbors budget meant the loss of money already spent on many projects, and that the bill would cripple transportation at a time when it is imperative the United States should extend its commerce.

HOW LODGE HAS CHANGED

POLITICS makes strange bed fellows and that is a fact. When the treaty of Paris, settling the war with Spain was under consideration in the senate 21 years ago, Senator Lodge said:

Suppose we reject the treaty; what follows? Let us look at it practically. We continue the state of war and every sensible man in the country, every business interest, desires the re-establishment of peace in law as well as in fact. At the same time we repudiate the president and his action before the whole world, and the reputation of the president in such a matter as this is to my mind the humiliation of the United States in the eyes of civilized mankind, and brands us as a republic incapable of great affairs or of taking rank where we belong as one of the greatest of the great world powers. If that were true in 1898, why is the same thing not true in 1920?

The person whose life is aimless, self-centered, pleasure-loving of course, cares nothing for the fact mentioned. However, the outstanding men of earth, upon whom human advancement depends, are energizing religiously thru the church.
