Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind incombustible ashes, so the food and drink taken day after day leaves in the alimentary canal indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and poisonous poisons are formed and sucked into the blood. Men and women who can't get feeling right must begin to take inside baths. Before breakfast each morning drink a glass of hot water with a teaspoonful of limestone phosphate in it to wash out of the bowels the previous day's toxins and poisons and the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness or have a sour, gassy stomach after meals are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

HITCHCOCK SHOWS HOW OBSTRUCTIONISTS DID NOT WANT AGREEMENT

Many Offers of Compromise on Treaty Made by Administration Forces Met With Refusal by Lodge Forces in Senate

WASHINGTON, D. C., May 21.—Repeated statements made by Republican members of the senate that the President has refused to accept any change in the League of Nations covenant are disproved by the record itself, asserts Senator Gilbert M. Hitchcock, who led the Democrats in the treaty fight. Senator Hitchcock says that he himself offered five compromise reservations to the peace treaty, and that they were approved by the President.

Partisan claims that the President has demanded the adoption of the treaty without the dotting of an "i" or the crossing of a "t," Senator Hitchcock declares, constitute an example of the campaign of misrepresentation indulged in by treaty opponents.

"The President's recent letter," said Senator Hitchcock, "declared his devotion to the League of Nations and denounced the League Forces. This is all it did. I denounce them. I will never consent to them and many other senators never would, and millions of people never would."

"But those Lodge reservations were matched by reservations on this Democratic side of the chamber. I had the honor to offer five reservations and they were endorsed by the President and they were a tender of compromise. On Article Ten I offered a reservation which was a compromise. There was some doubt as to whether the President would accept that, but we on this side of the aisle were willing to stand for it. You did not accept it. Yet that reservation was drawn by a former Republican President of the United States (William H. Taft) but you refused to accept it. We offered all the compromise; the Republican side offered none. You refused all."
