

ALTA FRIDAY AND SATURDAY  
WHY MEN LEAVE HOME

Billings' mother-in-law was one of those "capable" women. She ran her daughter, Billings' wife, and she tried to run him out of the house when he settled down in an easy chair of an evening and draw forth his old rubber Jimmy-pipe that you find about in the fuzzy tobacco ads. and his mother-in-law, never having been through a gas attack, told him he would either have to change his pipe or his place of rest.

Some of the scenes called for in a shipyard, and when the film had progressed to that point Mr. Hunter promptly loaded his production truck into a car secured transportation for Helene Chadwick, Rockellite Fellows, Florence Dashon and other members of the cast and stumped the industrial life of the Southwestern Shipbuilding Company at San Pedro, California.

Mr. Hunter secured right of way in the yards, obtained pictures of the launching of the S. S. West Neris, an 8800-ton vessel, showing the Goldwyn players prominently in the foreground, and got some excellent shots of Helen Chadwick working as a rivet head, gulling sailing rivets out of the fire and tossing them aloft to be deftly caught in a can by the man above.

"TOO MUCH JOHNSON"

By Russell Holman  
While Billings loved his pretty wife, Her nagging mother got his goat; She called him "Satan's only son" And made him sell his favorite boat.

The fifty dame who bought the yacht Invited Billings on a cruise. As "Johnson" he had planned to go, When wife grasped his little ruse.

"We're coming too," she telegraphed, "Along with you to Mexico." So Billings had to stage a fake And watch his troubles quickly grow.

Another "Johnson" weeping wives; A frightful mess 'neath tropic skies; But Billings played a winning hand And made good all his alibis.

With Bryant Washburn in the lead, "Too Much Johnson" give us cheer! You'll say; don't fail to see this film; You'll laugh until your sides are sore.

Brunswick Principles In Fine Tire Making

The reason you are interested in the name on your tire is that it identifies the maker. By knowing the maker you can judge his ideals of manufacture. The only secret of a super-tire lies in the principles of the maker. His standards decide the quality. For there are no secrets in the tire industry. What you get depends on what is behind the name on your tire. Brunswick, as you know, means a very old concern, jealous of its good name. Since 1845 the House of Brunswick has been famous the world over for the quality of its products. The Brunswick Tire is all that you expect—and more. Your first one will be a revelation. You'll agree that you've never known a better. And you'll tell your friends. So spreads the news among motorists. The Brunswick is the most welcome tire that ever came to market. Try one Brunswick Tire. Learn how good a tire can be built. And remember, it costs no more than like-type tires.

WHICH WAS THE REAL WOMAN?  
Was the laughing, dancing butterfly of wealth and luxury the real one? Or was it the worker, the hard worker of brain and muscle, who cast aside money and ease for the lot of a common laborer?  
There was one man who saw her as both, but never knew—she never knew herself which was the life she was really meant to live. You won't know until you see this great Rupert Hughes picture, because the story unfolds naturally and mysteriously just as life itself. It is a great picture!
