Wool Market

**BOSTON, May 21.**—The Commercial Bulletin says today: "The wool market has been very dull here so far as private trading is concerned, and prices are difficult to quote because of the lack of business and the uncertainty. Prices declined 10 to 20 per cent on the fine wools offered at the English government auction here. Buying in the west is practically at a standstill."  
 "The reports from the goods markets are anything but encouraging, with cancellations, more or less general. The worsted mills have not felt these cancellations so much as the woolen plants."

"Giving Wool Away"  
**Say Auctioneers.**  
**BOSTON, May 22.**—Auctioneers said they were virtually giving wool away when prices at the final sale by the British government yesterday went slightly below the low levels established in the break of Thursday. These quotations, from 16 to 20 per cent under recent prices, did not pass the dollar mark per pound for greasy wool or 22 for clean wool in any lot.  
 There were few bidders and only 24 per cent of the wool offered was sold, in the two day sale less than one-third of the offering was disposed of, a result 7,000,000 pounds of wool remains.  
 Typical of the transactions today was best shawty combing 70c, Brisbane spinners wools, sold on a clean basis, which brought from \$1.90 to \$1.94 a pound. The quotation yesterday was \$1.98.
