Report of Planting Delays
Bulls Chicago Corn.
CHICAGO, May 25.—Reports of planting delays throughout important sections had a decided bullish influence today on the corn market.

URIC ACID IN MEAT CLOGS THE KIDNEYS
Take a glass of Salts if your Back hurts or Bladder bothers.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach roars, tongue is coated and when the weather is bad you have rheumatic twinges. The urine get cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast or a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

Upward swings in the corn market with shorts covering freely began at most immediately after the opening and with no liquidation in evidence continued until just before the close. Buying attained its greatest impetus simultaneously with general notice of gossip that to an unusual extent wet soil conditions had been a hindrance to getting the new crop into the ground and that the success of planting would in a large measure depend on the amount of dry weather in the next ten days.

Talk of export business in wheat and soy attracted attention. In corn there is extensive covering by shorts. Packers buying made provisions average higher.

Bonded Grain Supply
at New York dwindles.
NEW YORK, May 25.—The visible supply of American and bonded grain shows the following change:
Wheat decreased 745,000 bushels; corn decreased 657,000; oats increased 449,000; rye decreased 1,532,000.

Deflation of Credits on N. Y. Exchange Continues.
NEW YORK, May 25.—The session of the stock exchange today was devoid of special feature, aside from the superficial character of the trading. Financial, industrial and commercial developments over the week end seemed to offer little relief from recent unsettled conditions.

Efforts to place a construction on the low rate for call loans which renewed at six percent, the easiest Monday quotation in several weeks, met with scant success in the face of further stringency of time funds. Deflation of credits made additional progress under supervision of the federal reserve board. Signs of a break in the freight blockade were apparent, but merchants at important eastern and western
