

### MEMORIAL DAY—1920

At the graves of America's dead, France is laying flowers on our Memorial Day. It is a day when we should remember not only our own heroes who fought to preserve the Republic, but the "brave dead" of all nations buried on the battlegrounds of the Great War, who fought to bring greater freedom to the whole world.

It is our duty now as Americans to pledge ourselves to bring to final consummation the end for which these men fought, to determine that their sacrifice shall not have been made in vain.
