shoddy or over worked wool than they have the virgin fleece.

Official notice of the cancellation of the Portland sale is given:

"The Oregon Wool Growers' association, through its executive officers, states that the advertised wool sales to be held in Portland June 14 will be postponed until further notice. The unsettled condition of the market is said to be the reason for this action. The Wool growers of the Northwest have been financially enabled to hold their wool until the market justifies continuing the sales.—Mack Hoke, Secretary."

Demoralization in Trade Postpones Wool Sales
PORTLAND, June 11.—The demoralization of the wool market is so complete at this time that the first sales scheduled for Portland June 14, have been canceled by the Oregon Wool Growers' association.

Buyers have practically quit the market and are now unwilling to make bids for any fleece. Such a condition has never before been known in the trade, but it is mostly to the fact that huge stocks of wool are held in world's centers from old clips because manufacturers have been using much more

Oats Going Higher Developing Weak Corn.
CHICAGO, June 11.—Extreme weakness developed in the grain markets today after oats had jumped to a new high price record. Corn closed nervous, half cent net lower to 1-1-2c advance, with July \$1.74 1-8 to \$1.74 1-4 and September \$1.61 7-8 to \$1.62 1-4.

Oats finished at 2 1-2c decline to 1 1-2c gain. Provisions showed a rise varying to 7 to 70c. In the demoralization resulting from the heavy selling to unload while fancy prices could be obtained, the July delivery of oats collapsed in value as much as 7 cents a bushel.

Corn derived its initial strength and subsequent weakness "almost entirely from the wild fluctuations of oats. Higher values on hogs together with export call for lard strengthened provisions.

LESS MEAT IF BACK AND KIDNEYS HURT
Take a glass of Salts to flush Kidneys if Bladder bothers you.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torrid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

market differed in no essential from recent sluggish sessions.

The trend of events at Chicago was followed with greater interest, a moderate rally ensuing on news that an agreement had been reached regarding the treaty plank. Improvement proved of short duration, however, another general reversal setting in when rails lost ground. Sales amounted to 400,000 shares.

Announcement of the new capital offering by Chicago and Northwestern was not accepted as a bullish factor.

United States Steel moved within narrow bounds, even after publication of May tonnage figures showing an increase of almost 600,000 tons. This brings the amount of unfilled orders up to the largest total since June of 1917.

Prospects of additional gold imports were strengthened by the weekly statement of the Bank of England, which disclosed another large gain in that institution's holding of the precious metal.
