EXTRACTS FROM NOMINATING SPEECHES
(Continued from page 1.)

no mistake; to the end that you who hold in your hands the party's destiny may go forth from these halls, triumphant in the assurance of certain victory; to the end that a republican administration may once again broadcast the nation with happiness and prosperity; to the end that the constitution of our fathers and the highest traditions of the American people shall endure; to the end that the patriotic principles and the lofty ideals of Washington, of Lincoln and of Roosevelt shall live on and on and on—the sovereign state of California places before you in formal nomination—Hiram W. Johnson.

The orator described Senator Johnson as the man first brought forth for presidential honor by California after 70 years of stanchhood, and left no controversy in recent political history untouched as he sketched the senator's career.

LOWDEN

(By Associated Press.)
CHICAGO, June 11.—Liberating Governor Frank O. Lowden into Lincoln Congressman W. A. Rodeberg of Illinois today placed the name of the Illinois war governor Lowden in nomination. He said in part:

At no time since the birth of the Republican Party has there been greater need for the exercise of calm, deliberate and dispassionate judgment in the selection of a standard bearer than there is today. A spirit of rebellious unrest is abroad in the land. On all sides are heard murmurings of discontent. The times are pregnant with the prophecy of gloom and despair. Confidence has disappeared and the splendid optimism of the former days, once our proudest national asset, has given way to an over-present fear of impending disaster. For seven years the Ship of State, straining in every timber, has been drifting in a sea of uncertainty, its pilot confused and bewildered by strange voices in the air and lured on in its vacillating course by false lights along the shore.

A solemn responsibility rests upon the republican party today. Many difficult and perplexing problems, social, economic and industrial, growing out of the world war are pressing for solution. In the crucial and critical period upon which we have now entered this nation demands its Chief Executive a man of clear brain and steady nerve, a man of vision but not a visionary, a man of ideals but not an idealist, a man of works and not of words.

Illinois has such a man.

We present him to you as our candidate for President.

We present the patriotic governor of a patriotic state, Frank Orren Lowden.

NO CARS AVAILABLE TO DIVERT GASOLINE HERE

Southern Idaho has an abundance of gasoline but getting cars in which to transport it here is the problem. The Weiser people have announced a willingness to sell this city any am-

out of the elusive fluid. Despite two days' strenuous efforts, Mr. McKay was unable to get a car in which to send gasoline here. Stripes are still out to get a few tank cars to help combat the shortage here.

"They are getting so much gasoling at Weiser that they are obliged to cancel some of their orders," Mr. McKay said today. "They would gladly divert some if someone will not let the tank cars be sent west, however."

Weiser and other Idaho towns are receiving their gasoline from California and the cars are passing through Pendleton on the O. W. R. & N. Mr. McKay says he learned while on the trip. This situation is one which he was unable to find explanation for and reports will likely be sent in from here to the oil concerns and railroads in an effort to obtain relief.
