What other phonograph dares this test?

Did you ask some one about the Edison Tone-Test recital given recently in Christian church? The startled audience heard Marie Morrissey's living voice flood the packed house. It then heard the New Edison match that voice, even unto its finest variation of shading and feeling. Any one who was present will tell you:

The are of the living artist and its RE-CREATION by the New Edison can not be told apart.

It is no idle phrase that you can enjoy Cass, Middleton, Hempel, Matzenauer, Spaulding—in your own home. The New Edison brings all that the great artist can bring, except his physical presence. It is the phonographic triumph of the age!

The New Edison

"The Phonograph with a Soul"

Come in and hear this wonder for yourself—the three million dollar phonograph* that re-creates the very soul of music.

Warren's Music House
