Lowe's

Paint to-day

Walk on to-morrow

Isn't it true that you would paint your floors oftener if you didn't have to keep the house upset so long waiting for the paint to dry?

Wouldn't you do it oftener if you could paint one half of the floor one day, then move the furniture over from the other half and paint that the next day?

Well, that's just what you can do with Lowe's Hard Drying Floor Paint. This fact, together with the way it stands wear and tear is the reason it is used so much on restaurant floors and ship decks.

Come in and ask for descriptive literature.

ORATORY IS LONG BUT SENSE OF HUMOR WINS

(By Associated Press.)
CHICAGO, July 1.—The long hours of oratory that mark every national political convention may bore the tired delegates and spectators nearly to the point of exhaustion, but never kill their sense of humor. Occasionally a witty sentence or a quick rejoinder has been credited with having had a greater effect on the final result than all the oratory of the picked spellbinders.

At the recent Republican gathering at Chicago, Frank G. Willis, former governor of Ohio, was nominating Senator Warren G. Harding for presidency. Ohio was for down in the list. The 12,000 awestruck persons, who crowded the big Coliseum, had listened with only half-interest to more than five hours of fervid oratory when Willis, closing his speech, said: "Well, boys and girls, let's nominate Harding."

The friendly humor brought a ready response.

The next day, when the landslide toward Harding began, an Ohio admirer of the senator who had inscribed the sentence on a huge sheet of cardboard dropped it from the gallery. It made an instantaneous hit.

Earlier in the contest, a negro delegate from Oklahoma, appearing before the credentials committee at 2 o'clock in the morning to press his claim for a seat, put new life into that body and won his point by a remark. Having told how the "lily white" side had held its convention in a hotel from which negroes were barred by the proprietor, he said:

"Why, gentlemen, in Oklahoma there's 'Jim Crowism' from the henhouse to the hotel."

In the laugh that followed a motion to meet the contestant was carried unanimously.

LITTLE PENNSYLVANIA CITY CLAIMS HOLD ON WHITE HOUSE TIMBER

WASHINGTON, Pa., July 1.—If Warren G. Harding is elected president of the United States, this pretty little university city in the hills of Western Pennsylvania will be bound up, closer than ever with the White House, for not only did Senator Harding's ancestors live here but the father of President Wilson also was a resident of Washington.

Senator Harding's great-grandfather, William Van Kirk, was one of the early settlers of Franklin township, and he and his wife are buried in the family graveyard on the Charles Van Kirk farm near Point Lookout. Senator Harding is honorary president of the Van Kirk family society and frequently has attended the annual reunion here.

President Wilson's father, Rev. Joseph Ruggles Wilson, was born at Steubenville, O., not far from here and in 1848 became pastor of the Hills Presbyterian Church at Canonsburg, near Washington. Here the family remained until their removal to Virginia where the President was born a short time afterward.

MUNICIPAL POOL FUND OF \$20,000 INSPIRED BY DROWNING OF YOUTHS

MISSOULA, Mont., July 1.—Started three years ago, following the drowning of three small Missoula boys while swimming in the river here, the Missoula municipal pool fund of approximately \$20,000 raised by public subscription, was recently completed. The pool has been built and the building will be completed at once. No charge will be made for children who may wish to swim there, but a minimum charge will be assessed upon adults.

CORDIAL AND WILD CHERRY WINE PUT ON REVENUE LIST

(By Associated Press.)
WASHINGTON, July 1.—Blackberry cordial and wild cherry wine were yesterday added by the bureau of internal revenue to the list of intoxicating liquors and may be sold by druggists in retail quantities of less than five gallons only to persons who

Crolide Compound
is the result of scientific research. It eliminates premature tire troubles.

Remarkable rubber discovery ends premature tire trouble

Non-porous rubber made possible by Crolide Compound

WHAT is the basic cause of tire deterioration? Why do so many tires give way from premature trouble—sand boils, tread separation, blow-outs?

Have tire-makers done anything notable in the past five years to solve the problems of longer wear?

As progressive tire distributors, we set out to find an answer to these questions. This is what we learned:

rubber compound which eliminates premature tire troubles.

Crolide seals up the millions of small pores. Made with Crolide Compound, Thermoid Tires are from 50% to 100% tougher than ordinary tires, yet they gain in resiliency. A one-inch strip stretches to 7½ inches.

It was after comparing their value, point by point, with 9 other makes that we became distributors for Thermoid Crolide Compound Tires for this territory.

You are invited to call and see these new tires, also the famous Crolide Compound Tubes. Let us tell you interesting detailed facts, experiences and tests that show why either Thermoid Cord or Fabric Tires end premature trouble and give better mileage.

Write or ask us for name and address of the Thermoid dealer who will supply you.

have obtained permits to purchase intoxicating liquor.

Instructions were issued to Federal prohibition directors today detailing a number of preparations containing alcohol and submission to the prohibition regulations.

Elixir of licorice came under the bureau's ban along with the elixir of anise and bitter orange. Compound spirits of juniper and myrica were ruled intoxicating as well as compound tincture of lavender.

VALLEY OF 10,000 SMOKES NO MORE TO BE VISITED MAN WHO FIRST SAW IT

COLUMBUS, Ohio, July 1.—The Valley of Ten Thousand Smokes near Kodiak, Alaska, will see no more of its discoverer, Robert F. Griggs, professor of botany, Ohio State University. Prof. Griggs, who describes the Valley as "hell, something hell, with the lid off," says five trips to this desolate country atop the earth is enough and that he is "fed up on it." During the coming summer Prof. Griggs expects to complete his book describing this valley of mystery and the eruption of Mt. Katmai nearby.

AMERICAN BUSINESSMEN ARE OPIUM SMUGGLERS

(By Associated Press.)
AMOY, China, July 1.—Two Americans, who are said to have represented themselves as big business men, are alleged to have been caught smuggling opium from Amoy to Manila. Activity in the opium trade is increasing in spite of the government's opposition to it. It is reported here that military leaders are forcing natives to grow opium as a source of revenue for the officers.

SUGAR PRICE DROPS.

(By Associated Press.)
SAN FRANCISCO, July 1.—All sugar allotments placed on sale today were quoted at \$22.75 per hundred weight, the refinery price, a drop of 25 cents since yesterday.

AIRSHIPS TO FEATURE ELECTION CAMPAIGNS

(By Associated Press.)
WINNIPEG, Man., July 1.—Airplanes, used for advertising purposes, will feature the election campaign of the members of the Manitoba government, who will seek reelection under the leadership of premier Norris this summer. This unique method of conducting electioneering is new and is claimed by officials of the Norris government to be the first attempt to use it in the world. Edward Brown, Provincial Treasurer in the present cabinet, recently took a flight over Winnipeg, and expressed himself as highly delighted with the possibilities of airplanes in the campaign. Two machines are already engaged in the enterprise. They will touch at least one town in every constituency.

Campaign literature will be dropped from the airplane as it circles over the town. After landing, the government supporters in the machine will address the crowd that gathers to meet it.

Supporters of Premier Norris are enthusiastic over the scheme. The machines at present engaged display an appeal urging voters to support the present government.
