CITY OFFICIAL PAPER

NO. 9573

COX TO DIRECT ADMINISTRATION IN CAMPAIGNING

Nominee Allowed to Take Over Party Leadership Without Resistance by Present Chiefs Say Indications.

NO CRITICISM HEARD FROM PARTY OFFICIALS

Willingness to Stand on League Plank Adopted by Convention, Directed by Wilson, is Given as Cause.

(By United Press.) WASHINGTON, July 8.—Cox will be allowed to take over the party leadership without resistance by the Wilson administration, according to all indications. High democratic officials from Wilson down made it plain that their part in the coming campaign depends entirely on the wishes of Cox and his campaign managers.

Significant in the circumstances is the fact that no word of criticism of Cox or any of his acts has been made by democratic officials here. The established attitude of the administration is that Wilson followers wrote the platform and got their league of nations plank through the convention. Cox indicated his willingness to stand on that plank, on the broad endorsement of the administration.

A growing belief is that Wilson's part in the campaign will be through written word rather than speeches, and that Cox himself will assume the burden of carrying a democratic course to the people.

FIFTY DAIRYMEN SIGN MARKETING CONTRACTS

Fifty dairymen of Stanfield, Hermiston and Columbia yesterday signed contracts with the Oregon Dairymen's League for the marketing of dairy products and when 50 more signers are secured the league will take over the management of the Hermiston Dairy and Stanfield Cheese factory.

With the signing of the contracts and the joining of the League, the dairymen agree to permit the league to market products in any way it desires. The milk or cream may be shipped to Portland, Pendleton, used in Stanfield or Hermiston, etc. It is probable that after the trial of 100 signers has been attained, the Stanfield and Hermiston dairy plants will be united under one management. Oregon Dairy League butter is of uniform grade and each wrapper bears the trademark, so that butter may be shipped in carload lots by the league. Meetings held yesterday under the auspices of the county Farm Bureau, at the three west-end towns, for the purpose of bringing the plan before the farmers, were well attended. Zoe Houser presided at Stanfield, Frank Waagman at Columbia, and George Cresser at Hermiston. Paul Mehl, of the bureau of markets, J. D. Michie, state dairy and food commissioner, and M. S. Shrock, of the league, spoke at the meetings and at the Farm Bureau picnic, held at 11 a. m. at Columbia with 100 people present.

ACTION WRITES FINAL CHAPTER INTO POLICY TOWARD SOVIET RULE

(By United Press.) WASHINGTON, July 8.—In removing an embargo against Russian trade, President Wilson wrote a final chapter to the present administration's policy toward the soviet government of Russia, officials here believe. Removal of the trade embargo is a step toward the soviet government. Action of the state department carries the following salient provisions:

Each application for permission to ship to Russia will be decided on by its own merits. The shipment of materials for "susceptible and immediate use for war purposes" will be prohibited. "Political recognition of any Russian authority, exercising or claiming to exercise governmental functions will neither be granted or implied by this action." Individuals or corporations taking this opportunity to trade with Russia do so entirely on their own responsibility and at their own risk and the assistance which the United States normally extends to its citizens trading and traveling in a recognized country, cannot be expected in the case of Russia.

Warsaw dispatches said the fighting was continuing from Poland to Molochovo and all along the railway running into Vilna. Hobson, in the telegram, declared that a statement from Cox to the effect that he opposed any increase in the maximum alcoholic content of one-half percent would save to democracy millions of voters who hold this question above party success. Cox said he expected to answer Hobson later in the day and indicated he didn't intend to dodge the issue.

One bid, that of Geist Bros., was submitted to the city council last night for the proposed sewer on Turner street. The bid was not figured on the basis of total cost and has been turned over to the city engineer for reduction to a total.

Concrete paving on the block between Turner and Court streets on Turk street, was petitioned for by the Sisters of St. Francis. The petition was referred to the street committee.

The street committee recommended the granting of a petition from the Collins Flour Mills to be allowed to build a wheat conveyor under Webb street from the Farmers Union elevator to the mill building. CONFEREES IN DEADLOCK ARE ORDERED BACK

German and Allied Military Officials Discussing Disarmament are Cutly Told by Lloyd George to Reconsider.

THREE MONTHS' LIMIT IS DETERMINED UPON

Long-time Request Meets Fiat Refusal and Foch Says Smuggling Must Stop and Nation Must Face Music.

(By United Press Staff Correspondent.) SPA, July 8.—Premier Lloyd George on behalf of the allies today offered the Germans to October first the time for the reduction of the German army to 150,000 men and until January first to 100,000 men as provided by the treaty of Versailles; also to allow the Germans to retain certain troops in the neutral zone temporarily.

(United Press Staff Correspondent.) SPA, July 8.—German and allied military officials, who discussed German disarmament, reported to the conference today that they are unable to reach a basis of agreement. Lloyd George curtly told them to resume the discussions. It is rumored that German Minister of Defense Geisler offered his resignation to Chancellor Fehrenbach but reconsidered when assured that the Germans will be allowed six months to demobilize their military forces.

Germany must comply with the disarmament provisions of the peace treaty within three months, it was decided by the allies. The German request for 15 months' time in which to disarm was met by a flat refusal.

The disturbed German internal situation was given as the reason for the delay sought. Herr Simons declared the German government is faced with three difficulties—Distrust of the allies, danger of bolshevism in Germany, and impossibility of raising the financial conditions of the country. He said Germany will make every effort to meet her obligations under the treaty and asked the allies to continue occupation of the neutral zone.

He admitted arms are being smuggled into Germany, saying that all attempts of disarm volunteers thus far have failed. He said the government had not resorted to force to obtain these arms as it feared the results of such action. Simons said Germany is still facing the possibility of dangerous revolution from two sides, radicals and monarchists.

Marshal Foch said significantly that if the German delegation here is unwilling to face the music, the allies still have a strong force under arms which would enforce the treaty.

The men ordered Bleakney to turn around and drive back as they finished robbing him and it was not until he arrived at Adams at about 6 o'clock that he notified officials here of his plight. Sheriff Taylor made a search for the men, of whom a meager description was given.
