### Portland Markets

Drop 25c to 50c.  
Considerable weakness was shown in the cattle market Wednesday, when prices were cut 25 to 50 cents. Even at the lower prices the market was slow and weak, with practically no buyers on hand for the early morning trading. The total arrival in all lines of livestock over night was 25 cars.

The tone of the hog market continues steady, several sales being made at the market top. Receipts overnight were very light, only 156 head arriving.  
General hog market range:  
Prime mixed ..... \$12.50 @ 15.00

Rough heavies ..... 10.00 @ 11.25  
Pigs ..... 11.75 @ 12.75  
Smooth heavies ..... 11.25 @ 12.75

It would take an extra good lot of steers, cows and calves to bring the market top quoted in each of these lines. There is absolutely no demand for poor stuff and but a very small demand for good quality stock.

General cattle range:  
Choice grass steers ..... \$10.00 @ 10.50  
Good to choice steers ..... 9.25 @ 10.00

**Committee Accepts Report For Reopening of Wheat Trade**  
CHICAGO, July 8.—An advisory committee, composed of representatives of all wheat interests today accepted the report of the committee representing the leading grain exchanges, calling for the reopening of trading in wheat futures on July 15. The report provides that there shall be no trading in deliveries beyond March or this side of December.

The advisory committee also discussed the transportation situation as it affects the marketing of wheat. It was decided that the exchange committee, composed of two representatives from each of the eight grain exchanges, should remain a permanent organization to take up any problem that may result from the reopening of trading after a three year suspension.

The advisory committee henceforth will be known as the General Grain Committee, with the following officers:  
F. B. Wells, Minneapolis, chairman;  
E. E. Goodrich, Winchester, Ind., vice chairman; George P. Case, Minneapolis, secretary.

### Broader Sweeps of Operations in Stocks

NEW YORK, July 8.—The recovery in the stock market which had its inception at the beginning of the month, was carried to greater lengths today on a broader sweep of operations, although speculative shares were again the outstanding feature.

Buying of these issues was of a more varied and confident character and originated largely at interior points, mainly western and south-western centers while New England furnished a moderate demand for metals.

Bulls and shipping shared in the movement to a greater degree than at any recent period. High grade transcontinentals and coalers contributed their proportions to the largest turnover since the first week of June, probably as a result of the better transportation situation.

More than half a day's business converged around the usual favorites, however, such as steels, equipments, oils and kindred specialties. Extreme advances as represented by leaders of those divisions, ran from 2 to 5 points, with considerable impairment on profit-taking at the close. Sales amounted to 600,000 shares.

Changes in the money market were mostly towards further easement. Call loans opened at 8 per cent, the lowest initial rate of the month, and some relaxation of time funds was reported, albeit quotations remained unaltered.

Mixed conditions prevailed in the market for foreign exchange. Sterling was firm and the Spanish rate strengthened but reactionary tendencies were displayed by remittances by Italy, Spain and the Scandinavian countries.

The successful flotation of the \$25,000,000 eight per cent Swiss loan, which was recently absorbed, featured the bond market. Anglo-French 5s also strengthening. Domestic issues, including the liberty group, were irregular. Sales, par value, aggregated \$14,450,000. Old United States bonds were unchanged on call.

### Chicago Corn Market Jumps Up Materially

CHICAGO, July 8.—Corn scored a material advance in price today, owing chiefly to belief that a reaction was due after the recent big break. Gains however, were not held. The close was unsettled 7-8c net lower to 3-8c advance, with September \$1.60 3-8 to \$1.60 1-2 and December 1.40
