Interruptions in July Cause Loss of Activity.

NEW YORK, July 16.—Dun's today will say: Early July, with its vacation interruptions and inventory taking, is not ordinarily a period featured by general and conspicuous activity in business and there are special reasons this year why operations would be limited. Constant reiteration of the importance of the price question is required in any discussion of the existing commercial situation and the elements of financial restrictions and transportation drawbacks have lost none of their significance. Where price readjustment has gone far enough to rekindle buyers' interest, as in certain kinds of hides and leathers, revival of demand along conservative lines has been witnessed and transactions that are being held in abeyance in some other quarters might be consummated if the necessary concessions were forthcoming.

Weekly bank clearings \$6,870,167, 547.00.

Sales 775,000 shares.

Turn About in Fair Play.

The following is told of a late railway magnate and a prominent Philadelphia lawyer. Said the magnate to the lawyer:

"I want you to show that this law is unconstitutional. Do you think you can manage it?"

"Easily," answered the lawyer. "Well, go ahead and get familiar with the case."

"I'm already at home in it. I know my ground perfectly. It's the same law you had me prove was constitutional two years ago."—Lancaster News Journal.
