# The Wise Owl

The owl, the bird symbolizing wisdom, has given rise to a lot of different stories. Many a young couple have been startled by its unexpected hoot-hoot during the late hours of an evening.

Sleeping during daytime with one eye open and keeping still, has earned it the reputation of being a wise bird.

Anyway, it is well to know how to keep still and in the meantime "saw wood." People who in a quiet way save a goodly part of their earnings and deposit it in a strong bank, are those who are ready for the opportunity when it is offered.

**Stocks Open With Reactionary Movements.**  
New York, July 13.—(By A. P.)—The week on the stock exchange began with reactionary price movements which seemed to measure the less optimistic views of traders in connection with the latest financial and industrial developments.

Advice dealing with the steel and iron industry were once more disconcerting because of the increased freight congestion and consequent fuel shortage. Many special stocks, such as textiles, leathers and rubbers denoted the unsettled trend.  
Oils, popular steel equipments and shippings comprised the weaker issues, losing two to eight points. Sales 775,000 shares.  
The money market was under careful scrutiny as a result of last Friday's 10 per cent rate for call money and the heavy shrinkage of reserves reported by the clearinghouse. Today's opening rate of eight per cent remained unchanged.  
Further gold imports amounting to \$3,150,000 were reported, with an additional engagement of \$1,300,000 in transit.  
Trading in bonds was unusually light and within corresponding narrow limits. The trend including liberty issues was lower. Total sales, par value, \$9,250,000. Old United States bonds were unchanged on call.

### Coffee Futures Lose Rally.

NEW YORK, July 13.—The market for coffee futures lost the greater part of its rally of late this week during today's trading with both September and December contracts again breaking below the 12 cent level. This was due to the renewed weakness of the Santos market which seemed to be the more impressive in view of the unsettled weather conditions reported in Sao Paulo, and after opening at a decline of 35 to 53 points, active months here sold at a decline of 65 to 79 points. This carried September off to 11.88 and December to 11.99 and the close was at the lowest prices of the day, showing a net decline of 75 to 80 points. July 12.85; Sept. 11.75; Oct. 11.83; Dec. 11.89; January 11.90; March 11.94; May 12.02.  
Spot coffee was reported dull and nominal on the basis of 12 3-4 for Rio 7's and 19 1-2 to 21 1-2 for Santos 1's.
