# RHINE ARMY WILL BE ORDERED INTO GERMANY IF SOLUTION COAL IS NOT REACHED TO

With Summoning of Foch and FATALITY REPORTS OF Field Marshal, Advance by Allies to Enforce Treaty Looms as Inevitable.

FLAT REFUSAL TO MEET TERMS BREAKS SESSION

Form Nucleus With Only Volunteers Called Out From Other Nations' Forces.

SPA, July 14.—(U. P.)—With the summoning of Marshal Foch and Field Marshal Wisson, allied occupation of German territory and other measures to enforce the Versailles treaty, today seems inevitable. Germany's flat refusal to meet the allied demand for 2,000,000 tons of coal monthly resulted in a suspension of the conference and the calling of the allied military leaders. Plans are completed for action against Germany, Unless some solution of the situation is reached today the French army on the Rhine will be ordered to proceed into Germany.

# Things for Pendleton. LAPOLLETTE REFUSES TO BECOME

ENDLETON stands to profit greatly by the report made by Miss Cummings of the University of Oregon on the subject of playground and recreational opportunities in Pendleton. Her survey is of value for many reasons. She outlines a broad plan under which all people may derive good at all times of the year. Yet so practical are the suggestions made that a start will be easy because my manufactured. that a start will be easy because we may begin with improving conditions at the three big grade schools. It is the logical place COX ANSWERS CHARGE day Night Hold-up Are authorities that the people will heartily support them in going Chased Over Hills of Rieth in the limit towards providing needed equipment and supervised play for the school children.

Miss Cummings recommendation for a centrally located community building to answer recreational and other needs is sure to strike a responsive chord. Many of our people and our organizations have long seen the need of such a building. It is not a new subject by any means in Pendleton but it remained for Miss Cummigs to add new life to the move by pointing out

the physical benefits to be derived from use of such a structure. Perhaps this is not the time to do any building, but that does not matter. It is not contemplated that the suggestions made can all be carried out at once. The survey looks to the future. not merely to the present. Some day we will be able to get this community building and the day may come sooner than we think.

As an advocate of the greater Pendleton the East Oregonian heartily supports the cause of good playgrounds and up to date recreational advantages for all people. It is sound policy to have such things from a human viewpoint and it will be good business for the city. This is primarily a home town and a school town. Every step that makes for happier homes and better schools helps build up the city. People like to move to a town that is awake on such subjects. We have gained population by improving local civic conditions. We can gain more by the same policies and Miss Cummings points the way.
