**NEW BORN PARTY**  
 (Continued from page 1.)  
 labor party and the committee of 48 were still in dispute today when word was received that Senator LaFollette objected to certain planks in the tentative draft. Inclusion of the Plumb plan and declaration for governmentization of mines were said to be points in the dispute.

**Resume Session**  
 CHICAGO, July 14.—(By Don J. Chamberlain, U. P. Staff Correspondent.)—The newly born and unnamed third party resumed its session shortly after 10 o'clock today with the intention of selecting candidates for the presidential campaign. Extreme radicals are boosting for Debs. Conservatives are still hopeful that LaFollette might be induced to head the ticket.

**Revise Platform**  
 CHICAGO, July 14.—(By Don Chamberlain, U. P. Staff Correspondent.)—The amalgamated liberal convention, after a morning of parliamentary jockeying to hold the delegates in check while the platform committee worked in an eleventh hour effort to write a new platform to satisfy LaFollette, adjourned at 11:50 until two o'clock. Secretary Esper of the labor party, announced the platform would be acceptable to LaFollette and all groups.

The labor party, it was reported, decided to make platform concessions to the committee of 48 when Milborn Rose, representing LaFollette, told them that the senator would not stand on the one proposed. Robert Buck, a member of the executive committee and labor party is leading the labor men in their fight for nationalization of mines and railroads, with democratic control, it is reported.

**Try to Bridge Chasm**  
 CHICAGO, July 14.—The redrafted platform of amalgamated liberal groups as prepared by the conference committee, states the new party's object is "fundamental reconstruction of democracy in the United States to restore all power to the people and set up a governmental structure that will prevent seizure, hereafter, of that power by a few unscrupulous men, and then follow, in a large part, the planks presented to the separate conventions yesterday, with some of the more radical ones strengthened. It was on this account the group of forty eighters on the conference committee issued a statement that they could not join the third party with a socialist platform. Government ownership and democratic control of both railroads and mines is included. The capital levy tax, however, was omitted. The plank for the taxation of land values was retained.

**CITY OF POCA TELLO NAMED FOR INDIAN**  
 POCA TELLO, Idaho, July 14.—(A. P.)—The city of Pocatello though named after an Indian chief, is not in reality an Indian name, according to old timers, and the origin of the name is an odd one.  
 Fort Hall on the outskirts of this place now an Indian reservation for Bannock and Shoshone tribes, was at one time a frontier post. Among the Indians in this vicinity at that time was a warrior chief, hostile and fearless though liked by all the soldiers who at different times clothed the chief in the cast off uniforms of officers of high rank. In his pilgrimages to the fort for food this chief insisted on pork and tallow, but being unable to properly handle the English language it was reduced to "Pok a tallo," and he was known by that name to all the white settlers in the west. Chief Pocatello's burial ground was an enormous spring on the reservation, of which there are thousands and with him were buried all his horses, bridges, blankets, tepees and guns. When the railroad came through a small village sprang up and in honor to this fighting warrior they named it Pocatello.
