The Nightingale

Nature has endowed one of the most obscure and plainest birds with the sweetest voice of all birddom.

The nightingale indeed is one of the sweetest singers in existence. During the breeding season, this tiny brownish bird, only a trifle larger than the house sparrow, can make the stillness of the night vibrate with its songs, clear as a bell.

The best, indeed, is not to be found in outside appearances. Many an inconspicuous young man or woman is faithful to self and others and carefully saving for a future independence.

Portland Stock Market Firm.
Ten loads formed total arrivals of livestock for the Thursday morning trade at North Portland. General conditions were little changed from the previous day.

In the hog alleys, while \$17.50 is the extreme top again for offerings, the market cannot be considered any too strong at that. In fact, there appears to be an undercurrent of eagerness in values. The recent advance in the price in the local alleys was too great and too rapid and the trade here has not yet become accustomed to the new figures.

General hog market range:
Prime mixed \$16.50@17.00
Medium mixed 16.00@16.50
Rough heavies 10.00@12.50
Pigs 12.50@15.00
Smooth heavies 12.00@15.00

In the cattle alleys there was only a small run for the Thursday trade at North Portland. Total receipts were but 84 head. In general the market

was considered about steady at the previous price range.

General cattle range:
Choice grass steers \$10.00@10.50
Good to choice steers 9.50@10.00
Medium to good steers 8.75@9.50
Fair to good steers 8.00@8.75
Common to fair steers 6.75@8.00
Choice cows and heifers 7.50@8.00
Good to choice cows and heifers 6.50@7.50
Medium to good cows and heifers 5.50@6.50
Fair to medium cows and heifers 4.50@5.50
Canners 3.50@4.50
Bulls 5.50@6.50
Choice dairy calves 12.00@14.25
Heavy calves 7.00@8.50
Best light calves 11.00@12.00
Medium calves 9.00@10.00

In the sheep and lamb alleys the Thursday trade was on a well established basis at North Portland. Arrivals were quite fair, but demand in all divisions was good. Prices were generally unchanged, although some revision is made in this report because of the fact that a slight error had been previously made.

General sheep and lamb range:
East of mountain lambs \$11.00@11.50
Valley lambs 10.00@11.00
Cott lambs 7.50@8.50
Yearlings 6.50@8.00
Weathers 6.00@8.00
Ewes 2.50@6.25

Lumber Production Below Normal.
SEATTLE, July 16.—Lumber production was approximately 58 per cent below normal for the same date last July 16, according to reports to the West Coast Lumbermen's association from 122 mills, made public from association headquarters today.

The figures were: Production 35,333,411 feet; new business, 49,616,923 feet; shipments, 46,659,763 feet. The unshipped balance in the rail trade was 684 cars. In the water trade unshipped domestic cargoes totaled 81,255,563 feet and unshipped export orders, 57,464,421 feet.

Reestablishment of Trading in Wheat.
CHICAGO, July 16.—Re-establishment of futures delivery trading in wheat eclipsed all other happenings today on the board of trade. After the close, officials of the exchange expressed themselves as satisfied at the comparative equilibrium that wheat prices showed and at the smoothness with which ordinary business methods were resumed after a war upset of nearly three years. The net result in values was a decline of 1 1/2 to 4 1/2c as compared with opening figures, December wheat finishing at \$2.37 1/2 March, at \$2.74. Corn closed 2 1/8 to 5c net lower. Oats 3/4c to 5 1/8c and provisions down 17 to 70c.

Except for a few minutes at the opening, there was no evidence of tension in the wheat pit. At first every foot of the pit was occupied by brokers, and crowds of others gathered around the edges, but in a few minutes the spectators having witnessed a unique commercial event withdrew, and it was not long before the pit buy-

ing and selling of future delivery wheat was left less than a score of traders. So far as could be ascertained, few, if any of the transactions were of speculative character. Most of the dealings apparently consisted of hedging for rural owners of new crop wheat. Absence of speculation was ascribed to the heavy margins required as a precaution against possible wild fluctuations.

Heavy selling of corn and oats carried down prices for those cereals.

Lower quotations on hogs and grain weakened provisions.

Attendance in Financial District Is Light.

NEW YORK, July 16.—(A. P.)—Interest in the stock market today was subordinated to the yacht race and the Spa conference. Attendance of brokers and traders in the financial district was light and dealings were correspondingly small until the final hour when the pace quickened on precipitate declines in selected issues.

The general reaction towards the finish of the session was accelerated by a rapid advance in call money from 8 per cent. This stringency, it was said, resulted mainly from the belated demands of borrowers for weekend funds.

Crucible steel, Vanadium steel, Stromborg Carburetor, American and Baldwin Locomotives, United States Rubber, Mexican Petroleum, Industrial Alcohol and International Paper suffered most important in the later reversal, although Crucible made up half its setback.

Less losses in these and kindred issues ranged from 1 to 5 points. Sales 375,000 shares.

The only direct reflection of Germany's acceptance of the allies' demands was a slight hardening of remittances on London and Paris, the Berlin rate also improving.

Trading in bonds, excepting Liberty issues, was mostly on a firmer and broader basis, the Belgium 7 1/2's making a new high record at 100 7/8. Total sales (par value) \$11,150,000. Old United States bonds unchanged on call.

Market for Coffee Futures Less Active.

NEW YORK, July 16.—(A. P.)—The market for coffee futures was less active today but showed a firmer tone on covering and buying for a reaction after recent sharp declines. As yesterday was a holiday in Brazil there were no early cables to influence sentiment here at the opening but first prices were 9 to 14 points higher and the

Drummer Doing His Bit

"I am a traveling salesman and have met others who, like myself, were suffering from indigestion, stomach trouble and gastritis. Since taking weekly doses of May's Wonderful Remedy I am very much pleased with its results, so much so that I have induced others to take it and they too were marvelously helped." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

rally was helped later in the day by private cables reporting an advance of 100 to 200 on the Rio Market. September sold up to 11.82 and December to 11.99, or 24 to 26 points net higher and the close was within a few points of the best, showing net advances of 22 to 32 points, July being relatively firm. July 12.82; Sept. 11.79; October 11.82; December 11.88; January 11.91; March 11.97; May 12.02.
