

People Here and There

Grant county mines are showing great promise, says Frank Duprat, who returned yesterday from a visit to the Greenhorn region. He states that the Ben Harrison mine is shipping ore out and that good results have been received, while the Tempest mine has been bought by a big mining corporation which will develop the mine. At present \$70 or \$80 is being received for the quartz, rich in gold, silver and copper. At the Duprat mine, says Mr. Duprat, Dan Stoffer, the president of the company, has started a tunnel 120 feet long and has already gone a distance of 550 feet, the vein being 3 feet wide. The mine is 12 miles from the railroad but the distance is to be cut to six. The gold from this mine assays \$14 a ton. Mr. Duprat and other Pendleton men have mining interests in the region of the three mines.

Canadian roads are in bad shape because of heavy rains and travelling by motor is difficult, says L. G. Frasier, who with Mrs. Frasier, daughter Jean, and Mr. and Mrs. Sanford Neves, of Home, Missouri, returned last night after a two weeks auto trip through British Columbia and Canada. Mr. Frasier, who drove through British Columbia into Alberta and thence to Calgary, says that the rain has made heavy mud of the prairie roads and that it was impossible to make good time on the trip. The British Columbia roads, he says, were good because of being traveled. From Sand Point, Idaho, to the border, the roads were so poor that only a 10 mile rate of speed was possible. Mr. Frasier says that the condition of Canadian roads at this time is a contrast to the condition three years ago, when he found the roads in good shape on a similar trip. Canadian crops are good, according to

Mr. Frasier, and growers are expecting a fine yield.

One of the Florida delegates was also in the party and they were greatly pleased with the highway.

Will Switzer, of Umatilla, is in the city today. An old tradition was broken recently when Mr. Switzer, who for years has operated the ferry at Umatilla, leased the ferry boat to new managers.

Indians, mixed and full blood, held a pow-wow yesterday on the reservation to discuss the rights of mixed bloods, says D. C. Bowman, who is in Pendleton today from the Indian

agency. The full bloods declare that the mixed bloods are not entitled to allotments, but the government law decrees that they are so entitled. Another meeting of the Indians is to be held next Friday at the schoolhouse, says Mr. Bowman, and the discussion will be continued.

NEW YORK, July 17.—The tone of the stock list in today's session was a distinct improvement over the previous days of the current week. Indications were not lacking of an overall condition in many departments of the list and it is the opinion in conservative circles that a large short interest has been fostered. It is expected that there will be easing in the local money market next week in the event of which the market prices will probably be disposed toward hardening tendencies. Important developments of a constructive nature in the railroad world are expected next week and confidence in disclosures of a highly favorable character touching on the carriers prospects is reflected in the impressive class of buying in
