TWO THOUSAND MOVIE WORKERS GO ON STRIKE

NEW YORK, July 21.—(A. P.)—More than 2000 moving picture workers in New York and vicinity went on a strike yesterday, tying up or crippling a score of film plants. The reason given for the walkout is the failure of the National Association of the Motion Picture Industry to meet the demands of the workers for increases in wages, shorter hours and recognition of the union.
Union leaders threatened to spend the strike throughout the country and include camera men, machine operators, stage hands and others employed in the "movie" industry.
All film laboratories in the metropolitan district are affected by the strike, union leaders declared last night, adding that the walkout would mean the curtailment of film production by at least 20,000,000 feet per week.
MIL'S CLOSING WATCHED
WASHINGTON, July 20.—The government is watching "with deep interest" the proposed layoff of men by the Pennsylvania railroad and the closing of the American Woolen Mills, it was said at the white house. It was not indicated if any action is contemplated.
