## BRITAIN ADVISES POLES TO ASK FOR ARMISTICE

LONDON, July 21.—(U. P.)—Premier Lloyd-George, in the house of commons today said the Polish premier had undertaken to withdraw the armistice of Poland within their legitimate frontier, in accordance to the

British proposal for armistice with the Soviet. The premier declared that the soviet reply to the peace proposal showed the Moscow government was prepared to consider the British proposal for the armistice in friendly spirit and added indications are that the Soviets only consider discussion with the Polish proletarian government which the Germans characterized as "intolerable."

In order to test the soviet desire for peace the British premier declared great Britain advised Poland to seek an armistice by direct negotiations with Moscow. If the Russians refused and continued to advance the allies will assist Poland. Lloyd-George declared that in the last few days Poland has raised a new army of 300,000 volunteers. He said the British ambassador at Berlin has already gone to Poland, and Marshal Poch will proceed to Warsaw later.

Love may bubble over, but hate is apt to slop over.

## WORLD'S POOREST CITY IS MADE RICHEST BY TOURIST TRAVEL

From the poorest republic in the world to the richest, what tourists travel did for Switzerland. That little republic practically unknown a century ago is now recognized the world over as a playground for tourists because its scenic beauties were capitalized.

Data showing what the tourist business has done for Switzerland has been prepared by Alfred A. Aya representing the Swift interests in Oregon and turned over to the Oregon State Chamber of Commerce to be used in connection with its state-wide expansion campaign now in progress.

It has a direct bearing on the campaign by reason of the fact that one of the chief arguments being used by the State Chamber is that cities are spending huge sums to advertise their interests along civic industrial lines.

In the article prepared by Mr. Aya showing the economic value of tourist travel he says:

"It is estimated that tourists annually spend more than \$750,000,000 in the United States. Of this sum it is estimated Maine and Colorado receive close to \$50,000,000; the New England states close to \$100,000,000; Florida close to \$200,000,000 and southern California close to \$300,000,000—while in 1918 it was estimated that Oregon with scenery second to none in the world received less than \$5,000,000 from this source.

"The best example in the world of the possibilities of the tourist business in Switzerland, with an area of 15,965 square miles, or about one-third larger than Harney county in eastern Oregon.

"The Swiss did not consciously begin development of the tourist business until about 100 years ago, starting with the single guest in the spare room until today the little republic has, according to the latest hotel guide, 959 hotels and doubles its population annually through the tourists. It is said the little village of St. Moritz has few over fifty native population, but 2700 beds for tourists."

Specific cities cited by the State to advertise their possibilities include Chamber that are spending huge sums San Francisco which is now raising a fund of \$250,000; Seattle now engaged in raising \$250,000 and New Orleans which put \$100,000 into an advertising campaign.

THIRD PARTY'S PRESIDENT

FARLEY CHRISTENSEN

### PROHIBITIONIST CONVENTION

(Continued from page 1.)

"While we are thankful for progress made, we cannot ignore plain facts, nor build false hopes," he said.

**For Public Ownership.**

Prohibition, "partially enforced," has proved its value, he said.

Suggesting the party should retain its public ownership plank, Watson said, "It is better the government should control the railroads than that railroads should control the government. The unprofitable experiment in government management of railroads must not cause us to swerve from our demands," he said.

Returning to the older parties, Watkins said he was forced to the conclusion that each is "a marvelous combination of statesmanship and stupidity, patriotism and pink, rectitude and rottenness such as the world has waited countless ages to see."

**Scores Old Parties.**

Watkins scored the president's treaty stand, saying the country deserves a league of nations but that the assumption only one man is capable of framing it savored of autocracy and couldn't be accepted meekly by free people.

Watkins also attacked the republican party. He asked if there were no Mexican problems during the republican administration and asserted it was raising a false cry of "Americanism" in the league fight. Both parties have committed themselves to internationalism on some of their platforms, he said. He cited the tariff the money question and the control of colonies he questions, in which one or the other party stood for internationalism.

Bryan sentiment is apparently waning. Rev. E. B. Prush, of Harrisburg, Pa., offered the prayer. Prush asked the guidance of God over the party.

**Convention Forgets Nominees.**

LINCOLN, July 21.—(A. P.)—Faced with a semi-official information that neither William J. Bryan nor "Billy" Sunday would be available for the national ticket, the prohibition party forgot nominees at the opening of the convention here today and sweated through two hours of speechmaking in an unventilated auditorium.

**Woman Is Chairman.**

LINCOLN, Neb., July 21.—(A. P.)—For the first time in the history of national politics a woman has been chosen permanent chairman of the national convention, Miss Marie C. Brehm of Long Beach, California, was selected by the prohibitionists.

**Bryan Is Proposed.**
