swept prices upward at a rapid rate. All classes of shares participated with gains ranging from 1 to 3 1-2 points. Short covering was of an urgent character for a time with commission houses reporting a large influx of buying orders from all sections of the country.

Seasoned dividend paying rail shares made the best showing. Such favorities as New York Central, Union Pacific, Southern Pacific, Illinois Central, Louisville and Nashville, Atchison, Reading and Northern Pacific were in the van with material improvements also in a long list of low priced roads and a wide sprinkling of specialities.

Farticular pressure was exerted against great variety of shares which are popular speculative mediums, in-cluding steels, equipments, shippings, olls, motors, textiles, paper and food

oils, motors, textiles, paper and food securities.

Advances under the flood of liquidation and short selling soon were cancelled and the list crumbled away steadily until many leading stocks were quoted at prices well below the low levels recently recorded.

Lack of any sustained buying power discouraged the bull faction and encouraged the bears, who made drives against particular issues in an endeavor to uncover stop loss orders. Reactions ran anywhere from 1 to 5 points. Sales approximated one million shares.

Bonds were quoted substantially higher and held up well despite weakness in other quarters. Foreign bonds were sold at concessions and there were moderate recessions in the Liberty loans. Total sales of bonds (par value) \$10,160,000. Old United States bonds unchanged on call.
