Why Trifle With Green, Unripe Drinks? Drink Schlitz—It Is Aged

YOU would not eat green fruit—fruit which is unripe. Yet unless you exercise care you will drink an unripe beverage—and suffer consequences.

There is a tendency today to cheapen and hasten beverages to meet a quantity demand.

Schlitz is not rushed. It is a scientific product—not a trifling concoction of the moment.

The years of experience and the hundreds of thousands of dollars worth of equipment that made Schlitz famous is making the Schlitz of today.

Schlitz is thoroughly aged—fully ripe. Then it is cooled in plate glass rooms, in filtered air.

The final step, after bottling and sealing, is sterilization by Pasteur's process—through which it is impossible for any germ to exist.

When we say Schlitz is pure we mean also that it contains no living organisms—no bacilli—nothing to cause fermentation in your stomach.

Drink Schlitz today. The Brown Bottle protects it.

The Drink That Made Milwaukee Famous

FOUR OPTIONS

From and after the first day of August, 1920, we will inaugurate a new system of handling our business, and all sales will be made with the understanding that the following discounts and terms apply:

First Option—All goods sold for cash on delivery or for cash in advance, are subject to a discount of five per cent.

Second Option—Accounts paid not later than the tenth of the following month are subject to a discount of two per cent. Statements will be mailed on the first of the month on which will be shown the amount of discount to which the customer is entitled.

Third Option—In the absence of any agreement to the contrary, all accounts are due and payable not more than sixty days from the date of purchase.

Fourth Option—By mutual express agreement at the time of purchase, if additional time is desired by the purchaser, the time for payment may be extended, settlement to be made by note drawing eight per cent interest from the expiration of the sixty-day period, if settlement is not made by note, the account will draw interest at eight per cent from the expiration of the sixty day period, the same as though a note had been signed.

Bear in mind that the above discounts and terms apply on all prices quoted except fuel, cement, sand and gravel and special bills. If the contract price of an article is \$40.00, by paying cash you get it for \$38.00 if you wait until the 10th of the following month you pay \$39.20; if you wait sixty days you pay \$40.00; if you wait fourteen months it will be \$43.20.

PELICANS SHOW EXCESS CURIOSITY, MAN SAYS

SANTA MONICA, Cal., Aug. 5.—(A. P.)—The stare of a large group of pelicans which gather every morning on the beach to watch H. L. Wright of Denver, Colo., go through his daily callisthenic exercises has caused the Denver visitor to apply to the police for permission to carry firearms as a means of teaching the sea birds politeness. He declared that no matter what section of the beach he chooses for his exercises, the gulls and pelicans congregate in a semi-circle and stare him out of countenance.

"I go down early in the morning so that I can exercise before bathers begin to come," he told the police, "but as soon as I begin my callisthenics all the sea gulls of the Pacific, it seems to me, float down, settle on the sand and watch me from a safe distance.

"Some of them screech at and; one old pelican gazes at me in fascinated silence. I came here to get well but that pelican is making a nervous wreck of me."

THIRD REPUBLIC TO BE CELEBRATED SOON

PARIS, Aug. 5.—(A. P.)—The fiftieth anniversary of the establishment of the Third Republic will be celebrated on September 4 next and will be observed as a national holiday. The program of the celebrations has not yet been drawn up but officials have expressed the wish that they be organized on an elaborate scale and surpass the fetes of July 14.

What Is Your Advertising Dollar Buying

High prices of materials and increased overhead have made necessary a stricter economy along mercantile lines. Advertising should be considered as well as the commodities in which merchants deal.

By choosing only those publications whose circulation is accurately measured, you not only practice economy in your advertising, but are assured that your money is buying a definite quantity of circulation.

The EAST OREGONIAN'S circulation is measured by the Audit Bureau of Circulations. Advertising placed in its columns is an economical investment.
