

UNION COUNTY NIMRODS PROPOSE DATE CHANGE

LA GRANDE, Aug. 11.—A group of local sportsmen are discussing the advisability of instituting legal processes whereby the opening of the grouse season will be changed from August 1 until August 10. In former years, the season has not opened until August 15, but for many years, sportsmen from this section of the country have attended the meetings of the legislature with the hope of having the law changed. But not until the special session last winter was this actually accomplished.

Although this season was much later than the usual season, and the birds were not hatched until late, sportsmen are now claiming that on August 1, the young grouse or pheasant is not large enough to kill, and that after August 1, the young bird will grow very fast in five or ten days, this short time making a vast difference in the weight of the bird.

About August 15 the old birds usually take the young birds higher and further back into the mountains, so the average hunter who spends his money for a license is unable to find any birds. Even though the season were moved up ten days, local sportsmen argue that this would give the hunters about a week of good hunting, and that the birds would be in a much better condition and larger. So far, no steps have been taken to bring about this change.

He was killed June 12 at the gate of Heping college in Hunan province when he refused to admit the officer's command within the wall. Mrs. Remert and her eldest child witnessed the shooting. Mrs. Remert was accom-

panied on her trip to this country by her three children.

NEGRO HUNGER STRIKER DIES AFTER 43D DAY

POTTSVILLE, Pa., Aug. 12.—(A. P.)—After having been on a hunger strike for 43 days, Charles Wilson, colored, died yesterday in the county jail.

Wilson, while serving a sentence of seven years for a series of holdups and attempted murders, tried to escape some weeks ago. He opened his cell door with a key made from a spoon, beat the night watchman into insensibility and engaged in a pistol duel with another watchman. He was severely sentenced to a total of 28 years' imprisonment. Then he began his hunger strike.

JOURNAL SPECIAL WILL ARRIVE AT 7:30 FRIDAY

The Journal Round-Up special will arrive in Pendleton at 7:30 a. m. Friday, September 24, and will leave Saturday night at 11:30, according to present plans of the O. W. R. & N., says H. W. Hicks, traveling passenger agent for the railroad who is here today.

Mr. Hicks says the Astoria special will be here for all three days and will arrive in Pendleton on Thursday morning.

Mr. Hicks is making arrangements for the transportation of the Multnomah Guard 45 piece band which will play here during the big show. Fred Earl, in charge of the non-competitive events for Round-Up, has accepted the proposition of the "Dokkie" band of La Grande to play here, and Mr. Hicks today wired Jack O'Shea to communicate with the University of Oregon or O. A. C. band and if possible secure the services of the college players. Other bands in view include the Cowboy Band of this city and the Milton band.

Federal Law Takes Precedence.

The federal law regarding the season and bag limits for migratory birds takes precedence over the state law, according to Marion Jack, member of the State Fish and Game Commission. The federal law opens the season for migratory birds on September 1 and closes it December 31.

Schlitz Is Not a 2-Day Drink—It Is Aged

In these days of "rapid-transit" beverages—turned out in a trifle over 24 hours, Schlitz purity is a matter of interest to your stomach. We admit to being over particular about the purity of Schlitz. Some people call us finical.

Where Schlitz is made, time is a matter of no importance, in comparison with aging and purity. Vessels are both chemically and mechanically cleaned. Every receptacle into which the pure yeast culture enters is sterile. Every tub, keg, barrel—every pipe and pump—is scalded every time it is used.

Schlitz is thoroughly aged, to save you biliousness. We believe that fermentation should be concluded before Schlitz reaches your stomach.

Then Schlitz is filtered through white wood pulp. It is put into sterilized bottles. Every bottle is washed four times by machinery. And these bottles are Brown Glass, to protect the drink from subsequent deterioration by ultra-violet rays of light.

When we say that Schlitz is pure—we mean free from germs; free from bacilli. Schlitz cannot ferment in your stomach. Its effect is as good as its taste. Test it today.
