RETURN FROM WALLOWA.

Mr. and Mrs. Mel Shurtum and Mr. and Mrs. T. B. Swearingen have returned from a fortnight's sojourn at Wallowa Lake. The trip was made in the Shurtum car and after the outing, the party spent a few days in Baker City.

From Wallowa, Mr. and Mrs. Shurtum took a homelick journey in the lake, six miles into the mountains, and enjoyed a fishing trip.

INDEAVOR SOCIETY HOST

A Mother Goose party is being anticipated by members and friends of the Christian Endeavor Society of the Christian Church. The affair is scheduled for 8 o'clock this evening in the church reception rooms and only "youngsters" are invited, though everyone who cares to play "kiddle" for just an evening is included in the cordial welcome. Wierd and fascinating are the diversions and refreshments promised. Miss Ethel Wirth and Miss Merita Savage are in charge of the festivity. Short aprons and

knice trousers will be in vogue and licorice and "all day suckers" will reign supreme.

BRYAN COMMENTS ON CANDIDATES' POSITIONS

LINCOLN, Aug. 12.—(U. P.)—"Senator Harding wants to go back to normal," and Governor Cox wants to go forward," says William Jennings Bryan today in a signed editorial in the August issue of the Commoner, his own publication. The editorial claims to be an "independent discussion of the acceptance speeches of Harding and Cox. Bryan devotes most

of his comment to discussion of the position taken by the two candidates on the treaty and liquor questions and regrets that neither candidate took a firm stand for a dry plank or the Volstead enforcement act.

Bryan says the stand taken by Cox for the "league of nations as framed in Paris" is more definite than the "association of nations" as avowed by Harding. The Commoner regrets the deadlock in the senate on the treaty, and peace questions and maintains that neither candidate has anything in store for the future other than mere faith. He concludes the editorial with a plea for a change in the constitution so that a majority of the senate can ratify.

JULY RECORD MONTH FOR MONTANA DRUNKS

BUTTE, Mont., Aug. 12.—(A. P.)—Figures in the police court show that there were more convictions for drunkenness in that tribunal during July than in any month since Montana went dry, 20 months ago. Just 112 men and women were convicted of inebriety during that period.

ments in the investigation. An aged Jewish tailor stood in line and wept hysterically. He clutched in his worn hand a note for \$1000 which represented the savings of 15 years of toil with his needle. Heart-broken, a printer showed a note for \$8000, the savings of years which he invested with Penn instead of building a home as he originally intended.

CHICAGO, Aug. 12.—Wheat—Started strong on reports of further liberal export sales over night but immediately easy on an unconfirmed rumor that Poland and Russia had agreed to an armistice. Later in the day a further decline was suggested by a report that the British commission had again withdrawn from the market after having taken only a small quantity. At the same time a good sized business has been done with other foreign countries and it is the belief of leading interests that the British have an agreement with France and Italy not to compete with each other for wheat in this country. Another cargo was reported sold to Brazil. Cash premiums in the local market advanced two cents. Country offerings somewhat more liberal.

Corn—It was an exceedingly dull day and the market action unimportant. Numerous messages from the country to the effect that the recent rains have made the crop with frost the only danger ahead, had a bearish influence on sentiment. A wave of selling also took place on the unconfirmed rumor that the Russian trouble had been settled. Cash market was irregular, being quoted one cent lower for mixed and white and 1 1/2 cents higher for yellow. The premium for September and cash gives December a good foundation, especially in view of the fact that the transportation situation is more than likely to make December an old crop month.

Oats—The old decline which was caused by the Canadian crop report making the indicated yield 100,000,000 bushels over last year, met good buying attributed to the seaboard and gave the market a firm tone most of the session. Cash article had a steadier tone at 4 cents to 5 cents premium over September for No. 2 white. There was no export business reported although the trade are inclined to anticipate an improved demand in the near future.

NEW YORK, Aug. 12.—The action of the stock market was strongly indicative of its being in a rather well liquidated condition and values in some departments moved forward rather easily on a moderate amount of buying. Reports from abroad indicated that the Russian-Polish armistice negotiations will get under way tomorrow and this if anything, tended to lessen somewhat apprehension over the foreign situation. It is thought that the Federal reserve bank statement of tomorrow will show an improvement in the motor status and with traffic moving very freely on the railroads, it is thought that this condition should show further
