NEW-RICH TO BLAME

DEAUVILLE, France.—It's the New-Rich and their desire to create sensations that has put this famous old watering place on the bum, say the society people who are going elsewhere this year.

Down like the one in the picture, give Deauville a black eye socially—but the New-Rich are spenders, say the townsfolk. So they worry little about sleepless, stocking-less costumes.

JOB HUNTERS OUTNUMBER JOBS, AGENCIES DISCOVER

CHICAGO, Ill., Aug. 31.—(U. P.)—Office workers and clerical men are feeling the pinch of the summer depression in business, according to F. M. Smith, attending the convention of the National Association of Technical, Educational, and Commercial Employment Agencies which opened here today.

"White collar workers have not the grasp on their jobs they had six months ago; office managers are willing to take on sparingly, and shirkers and incompetents especially are being weeded out," he declared. "In times of depression the banks sense the emergency first and act by cutting down on credit to business concerns. In the mercantile world there follow special sales and bargain offers, efforts to obtain quick money. Supplies and inventories are being liquidated, and the reduction of operating expenses, and blue envelopes to white collar men become common. Such a condition exists at present."

Replying to threats from the miners "that they would stop work September 1 unless the minority report of the commission, recommending a higher award than provided in the majority, were accepted, the president stated definitely that the majority award would not be set aside."

ANOTHER SHORTAGE—IN ARTISTS' MODELS

TOKYO, Aug. 31.—Art Along foreign lines in Japan is having a hard struggle because of the difficulty in securing models. Japanese girls have a marked dislike to posing in the nude.

An art school which recently spent considerable money advertising for models, received only seven answers in spite of the fact that the work is not hard and the pay, ranging from 45 to 100 yen a month, considered very high in comparison to wages paid

MEDICINAL ROOTS, HERBS, BARKS AND BERRIES

And other alternatives, tonics and health-giving ingredients that are recommended in the best medical books are embodied in Hood's Sarsaparilla. It builds up the blood, improves the appetite, invigorates the digestion, tones the stomach and gives nerve strength so as to promote permanent good health. Has merited and held the praise of three generations. You should give it a trial. As a gentle thorough cathartic many recommend Hood's Pills.

In other lines of work. This condition led an enterprising young man to make a specialty of collecting models, with the result that on a certain day he gathered together about sixty girls and invited all the prominent painters and sculptors of Tokyo to attend and make their selections. Business was so brisk that the entire number was disposed of, even though it is believed that only about ten per cent of them will remain in the business.
