## COX VISIT HAS STARTED SWING TO PROGRESSIVE SIDE

**Independent Republicans Turning in Large Numbers to Candidacy of League of Nations Supporter.**

(BY WARD A. IRVINE)  
PORTLAND, Sept. 26.—There is a very widespread defection in Oregon of republicans to the Cox camp. Last week 13 republican progressives joined a Cox-Roosevelt club in Portland. Three of the first contributors to a Cox campaign fund in Umatilla county were republicans. After the Cox meeting in Salem, several republicans announced their intention of voting for the Ohio progressive. On top of those shifts comes word that two very prominent Portland progressives will in all probability vote for Cox.

People here are attempting to discover the reason for so many defections. They differ in their findings. Many observers declare the charges mark the reaction of the people of Oregon against war, expressed in their advocacy of the League of Nations. Others insist that the turning to the Cox cause are progressives who cannot support the reactionary Harding. Others say it is the outstanding personality and purposes of Governor Cox that are drawing the republican vote. All agree that there has never been so heavy a shift from one candidate to another in the state as that which has taken place since Governor Cox's visit to this state.

One republican family in which there are six votes, went to Cox on the League of Nations issue. Two of the sons fought in France. The memories of the days of their absence linger with the members of that household and they say they intend to vote for the candidate who has faith that something can be done to prevent a recurrence of world calamities.

Among others who have quietly gone over to the Ohio governor and are saying nothing to intimate friends are progressive members of the League of Roosevelt in 1912. They say that the man who referred to the progressives as "a concentration of all the forces of failure and discontent, referred to Roosevelt as a "modern Aaron Burr" and to Hiram Johnson as "a fakir and blackguard," has no room now on their support. They say they are voting for Harding without sacrificing their ideals.

The individual cases of desertions passed along in ordinary conversation were a careful attempt made to assemble them, would undoubtedly run into hundreds. Whether the movement will continue and what it will amount to by November is a problem that cannot be guessed at this time.

## COUP TAKEN AS NEW CAMPAIGN OF BRITISH

DUBLIN, Sept. 26.—(U. P.)—General Macready's coup yesterday, in which he surprised the body of Sinn Fein troops at drill and killed one and captured 40 is regarded here as the first step of a new campaign to smash the "Irish republican" army. The coup is taken as an indication that Macready intends to take the initiative against the Sinn Feiners. "Republicans" soldiers were at rifle and bombing drill in the mountains 12 miles from Dublin, when they were surprised by the "auxiliary police." Sinn Feiners gave battle, using rifles and bombs. Macready's men charged into the valley from all directions, armed automobiles joining in the fray. The "republicans" lay down their arms.

Authorities are plainly jubilant over the result of the first offensive against the "republican" army. Macready's troops in this skirmish were recruited largely from former imperial soldiers. While government forces were accomplishing this victory, 100 Sinn Feiners commandeered automobiles and they left Dublin for Sunday drives. Thus equipped, they raided more than 500 homes on Tyrone county unionists, searching them for arms. At Abbeyfeale, Constable Mahoney was ambushed and shot to death. Two of his companions were injured.

## HALF SCORE OF SPEED KINGS TO VIE AT FAIR

SALEM, Ore., Sept. 26.—(Special)—Half a score of famous speed kings are en route to Salem to participate in the Oregon fair competition on September 27 and 28, according to an announcement made today by exhibition officials.

The famous Essex racing team, winners of the southeastern sweepstakes at Atlanta this year, as well as many other important events in the United States and Canada, also will be here.

Six events are included on the racing card each day. The trials will be included on the program with a special purse offered as an incentive for the drivers to go after new time marks for the Pacific coast. Horey, the St. Paul veteran holds 11 world records for various distances and will be looked upon as the most likely to win the record-breaking events. Jules Ellingboe, Canadian champion and holder of track records at Saskatoon, Regina, Calgary, Winnipeg and other Canadian

racing centers also is listed among the starters in the Oregon races and may be booked to meet Horey in a special match race for side bets and purses. Ellingboe and Horey have never clashed on a dirt track despite the fact that both men have been following the racing game for several years.

**BIGGER SAVINGS**

The value of baking powder is based on its leavening strength. You can't judge it by the size of the can—or by the amount you get for your money. You must estimate it by the amount of baking powder used in each baking and the results you get.

**CALUMET**

is the greatest value ever offered in Baking Powder—it has greater raising "force"—it goes further than most of the other brands. You use only a rounded or heaping teaspoonful where others call for two teaspoonfuls or more.

But Baking Powder is not all you'll save when using Calumet. You save baking materials. Calumet never fails. The last level teaspoonful is as powerful as the first. Calumet is perfectly manufactured—keeps perfectly—and is moderate in price.

You save when you buy it—You save when you use it

One trial will satisfy you of these facts—and demonstrate beyond doubt that "Calumet spells economy."

Your grocer sells it on a guarantee of money back if you are not pleased with results.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

**HIGHEST QUALITY AWARDS**

**OBSERVE THIS**

When you buy a pound of Calumet you get a full pound—16 oz. Some high priced baking powders are now being put on the market in 12-oz. cans instead of a pound. Be sure you are getting a pound when you want it. No short weights with Calumet.
