Famous Butter Expert Perfects Troco

New building, model of efficiency in margarine production

NOTICE

Regarding Mr. Hoffman's services. Up to the time of his recent connection with the Troco Company, Mr. Hoffman's advice and counsel was greatly in demand by Agricultural Colleges, Dairy Schools and associations, educational organizations, women's clubs, etc. We wish him to continue this good work and his services will still be available for this purpose, with the hearty co-operation of this

A. E. Hoffman is the man. He brings a lifetime of experience and a national reputation into this new field. For over 30 years he has made butter, judged butter and taught butter making and milk culture at leading dairy schools. He is called upon wherever dairy associations meet. Mr. Hoffman directs the details which now make

For this purpose, and with his counsel, we have built the most modern, up-to-date plant in the country designed exclusively for the manufacture of margarine. Built of concrete and white tile, it is provided with elaborate laboratory equipment and sanitary conditions which give full scope to his ability. In this ideal surrounding Mr. Hoffman produces perfected Troco, a fancy Troco which will delight with its sweetness and delicacy.

Troco is churned like butter, with pure, whole-some coconut fat replacing butter fat.

It gets its flavor from the same culture which flavors butter. Mr. Hoffman produces this culture in the Troco laboratory. It is the same which won his reputation in the butter world.

This rich nut fat is very nutri-

Many tropical races live and thrive on coconuts, their principal food.

Then this snowy neutral fat is churned with pasteurized milk—cultured to produce the famous flavor of perfected Troco.

We have personal knowledge of the herds which supply the Troco plant. This is a most important factor in achieving the standardizing of Troco flavor.

Standardized perfection

Every pound of Troco is guaranteed perfect in flavor and freshness when it leaves the Troco plant. If a pound reaches you in imperfect con-dition, we want to know it and remove the cause.

Because we intend to protect the reputation of Troco from the carelessness of handlers, we make this offer to users:

If ever you get a carton of Troco which isn't absolutely right, let us know and we will replace it.

But don't expect cut prices

Troco is the fancy grade of nut margarine. So like fancy butter it naturally commands a premium.

We will maintain this standard under all conditions and there-fore Troco may at times cost a few cents more per pound.

Your dealer keeps Troco or will order it for you. Ask him— and don't accept any other brand.
