TARDY SUN LOOKS ON BUSINESSLIKE CITY AS FESTIVITY ENDS

A few vari-colored flags hang forgotten on the buildings; there is additional rubbish for the busy broom of the street sweeper; one or two impromptu eating houses still stand; but in general Pendleton looks today much as if there had been no Round-Up.
"Business as usual" is the slogan and the city is normal once again. Stores, restaurants, hotels, etc., have returned to the pre-Round-Up basis, and in the sunshine which was expected for the show but which was a bit tardy, the town contemplates its usual business activity.
While the Round-Up association states that the show was higher and more successful than any in the past, they are unable as yet to estimate the proceeds.

districts of the east end of the county. Mr. Hatch was chosen by a building committee consisting of Frank Cockburn, of Milton, Hugh Murray of Free-water, E. P. Jensen of Ferndale, and Will Steen of Dry creek.
The work will begin early in the spring, Mr. Hatch states. No plan has been definitely chosen, but the committee is favorable to a plan submitted by the local man. It provides for a central administration building, with a gymnasium on one side and a manual arts building on the other.
Offices of the superintendent of schools and principal, study rooms, recitation rooms, class rooms and an auditorium with a 600 seating capacity would be among the rooms located in the central building. In the gymnasium would be space for basketball and other games with bleachers and balcony providing seating for 400 people. A swimming pool would also be located in this building, while in the manual arts building would be the equipment for woodwork, metal work, gas engine work, etc. The plan provides for the boiler and heating plant in the manual arts building.
The site for the new building which is to face Main street, is toward the railroad from the present building.
