**New Sidewalk Being Laid**

Stuart H. Elliott, examiner of inheritance, is at the Umatilla Indian agency to hold hearings to determine the heirs of deceased Indians. Mr. Elliott makes a visit to the agency every six months and has been coming to this reservation for the past six years. Mrs. Elliott is with her husband.

**Market for Wheat Dull**  
The local market for wheat is reported along the street as dull now and sales are few. The price paid here today is \$2.10, while the Portland figure is 20 cents higher. Yesterday the sale of 8000 bushel of grain at \$2.11 was the only transaction reported. Export trade at Portland is not so brisk. It is said, with bottoms there awaiting charter.

**Geese Seen at Reservoir**  
The first band of geese reported for the 1920 hunting season was seen yesterday afternoon at Cold Spring reservoir, according to word received by local hunters today. There were quite a large number of birds in the band heading south. Ducks have been numerous in the west end of the county since the season opened Sept. 15 and hunters who have had the time to go out have done fairly well.

**Pheasant Season Is Near**  
The season for shooting China pheasants will open on Sunday next and continue open until Sunday of the following week, giving a season of eight days. The limit for these birds is five in any one day and 10 in any seven consecutive days. Of the 10 birds allowed for the seven consecutive days, not more than two may be females. No predictions have been made as to the probable success of the pheasant season, although it is believed they will be found plentiful in some sections.

**Seeding Soon to Begin**  
Farmers who have completed harvest operations are turning this week to their summerfallow and are killing off the weeds as rapidly as possible, preparatory to seeding their winter wheat. The heavy rains of September have made the weeds grow rapidly and they can now be killed off with despatch. In some places the weeds are as thick as sod, farmers say. By the first of next week seeding will be under way in some localities and conditions will be much better than last year when many farmers, despairing of rain until late in October, seeded in the dust.

**Police Court Was Busy**  
Police court was a busy place during the week end just past, there having been 41 names on the blotter for the Round-Up season. Of this number, four were dismissed, two may be females, were for traffic violation, so that the number of drunk and disorderly cases was not so great as last year. There were 30 cases during the Round-Up season of 1919 but the week following was productive of about as many. The total of cases so far this month is 90 while for all of September, 1919, there were 88 cases. Fines this month, however, will not total as great as for last September, Judge Thomas Fitz Gerald believes.

**Found Home Ransacked**  
The home of Mr. and Mrs. G. W. Gillaspay, 833 Hazel street, was found topsy-turvy Saturday evening when the family and their daughter, Miss Alice, returned from Round-Up park. The burglar had gained entrance by opening a back screen door only to find the inner door locked. He then cut the screen over a bedroom window, and, with a pinch bar from the woodshed, pried open the window. The contents of trunks and drawers had been emptied on the floor but no articles are believed missing. The

**To Women Who Overdo**  
Thousands of American women in our homes are daily sacrificing their lives to duty. In order to keep the home neat and attractive, the children well dressed and tidy, women overdo. Soon a weakness of displacement is brought on and they suffer in silence, drifting along from bad to worse. Forty years Lydia E. Pinkham's Vegetable Compound has proved a boon and a blessing to women in this condition, by restoring their system to a normal healthy condition. Why don't you try it?

work was that of one man, Mr. Gillaspay believes.

**Will Leave This Evening**  
A. Phimister Proctor, famous sculptor who visited the Pendleton Round-Up, will leave tonight for Palo Alto, California. On his way he will stop in Portland and in Eugene. Later he will go from California to New York to complete the equestrian statue of Theodore Roosevelt, which will be presented to the city of Portland by Dr. Henry Waldo Cox. While in the city Mr. Proctor was the guest of Mr. and Mrs. Charles Carter.

**Misses First Round-Up**  
Carl T. Olsen, of Long Beach, missed his first Round-Up when he was obliged to pass up the 1920 show just ended. He will not be deprived entirely of its features, however, for he has written for the three Round-Up souvenir editions of the East Oregonian. He sent regards to friends in Pendleton and expressed a hope that he would miss no more Round-Ups.

**Funeral Is Held**  
The funeral of the late George Jackson, better known as Winnemucca Jack, who was killed at Saturday's Round-Up in the wild horse race, was held at Tutuilla church today at 1 p. m. Rev. J. M. Cornelson, pastor, officiated. The services were attended by a large crowd.

### DYNAMITE PLOT IN IRELAND FRUSTRATED

LONDON, Sept. 28.—(U. P.)—Scotland Yard has frustrated a plot to blow up the Irish office and treasury

building, a Scotland Yard official declared today. He said Sinn Feiners and bolsheviks planned an explosion in reprisal for police activity against them.

Plotter planned to send taxicabs, loaded with high explosives into the streets before the two buildings. After the explosion it was planned to have a large body of armed men rush into the district, inflict as much damage as possible and escape in the confusion which was certain to follow. A number of arrests have been made and a number of other persons implicated.

Other plots have been reported, especially if Lord Mayor MacSwiney dies. A number of arrests have been made in that connection and the guard about Brixton prison has been augmented greatly. The Evening Standard said hundreds of known men were implicated in a widespread plot for concerted action in the event of MacSwiney's death.

### Crop Payment Plan

500 acres all in cultivation, located in excellent grain producing section, 120 miles southwest of Spokane; seven miles from small town; fair set of improvements, good well and windmill; 400 acres good, clean, summerfallow, now being seeded, with plenty of moisture to give grain a good start. Place has all been farmed with a tractor. The neighborhood is good and some of the nearby farms are very well improved. With the farm goes all the crop; combined harvester, grain drills, etc. The 1921 crop should return you about half of the purchase price, and you have no expense until harvest. For a short time I offer this at \$40,000.00—\$10,000 cash and balance one-half the crop until paid. Don't put it off. Write or wire today.
