Easy Jobs Are Hardly Worth Doing

Any job which does not require any particular skill or a strong effort is "hardly worth doing." Saving money persistently, oftentimes denying yourself luxuries and sometimes necessities, is not such an "easy job"—but it is worth doing.

Troubles—of course you will meet, with obstacles, but surmounting difficulties will bring out the BEST there is in a person and it will do that for you.

The opening of a savings account in this strong bank is the logical financial beginning, and to add to it regularly and persistently will bring out the individual's business qualities.

North Side Residence

This house and its surroundings fit into the place for which it was intended; namely a permanent family home.

The house sets in the center of a spacious lawn, it occupies a full corner and the grounds are bordered with low stone walls on three sides.

The matured trees and shrubs give the house a very imposing and beautiful setting.

It is one block from the Umatilla County Library, thus giving the location the advantage of being close to Main street and also far enough away to avoid the commercial traffic, the smoke and dense air of the downtown places.

There are two large verandas, one on the rear and one extending around the Northwest corner. Large downstairs hall at entrance with oak floor, large living room with fireplace and oak floor, pass pantry with large refrigerator and built in china closets, kitchen with combination range and water heater, wash room and back hall.

Full cement basement, stationary wash tubs, gas heater, fuel room, fruit room, toilet and heating plants.

Four bedrooms upstairs, stairs, landing and hall, toilet, bathroom, closets, large upstairs porch, and large attic on third floor. Modern garage with concrete floor.

With the house is the complete furnishings, including carpets, rugs, draperies and every room completely furnished.

The property is in the center of a district where the finest homes are located and where the homes are owned by the substantial families of Pendleton.

This is without doubt the best offering this year in residential property and compared with the cost of construction at the present time, the length of time in which it takes to mature trees and shrubs on a new property and the fact that 200 feet of paving and 200 feet of concrete walks are all paid for it is a very moderate price.

Hogs Depressed Tuesday;

Cattle and Sheep Steady.

Only nominal supplies were available Tuesday for the livestock trade.

Hogs were depressed, cattle and sheep about steady with no further price changes.

In the hog alloys the total run was but 200 head and of this amount killed secured 119 head direct, which did not enter the market. However, there were several loads of holdover stock from Monday and buyers appeared little interested in anything in the hog alloys.

At the best the market looked weak at the drop of 50c made in the price at a late hour Monday. At the lower price Portland is lower than Chicago for the first time in an extended period.

General hog market range:

Prime mixed \$16.50 @ 17.00

Medium sized 16.00 @ 16.50

Smooth heavy 15.50 @ 16.50

Rough heavy 13.00 @ 15.00

Pigs 12.00 @ 15.00

While practically the entire offerings in the North Portland cattle alloys Tuesday consisted of stocker and feeder stuff, the general situation indicated a steady tone for killers. No price changes were noted.

TODDLES and the TWINS agree
They could ill afford to spare
LOTTA COMFORT's company—
Hence their Lackawanna wear.

BABE is decidedly "underwared" for the occasion in a Lackawanna Band and Shirt. The band provides ample warmth and support for the abdomen. The shirt envelopes the rest of the body in a cosy, snug embrace. Both band and shirt render tribute to infant-comfort in the studied and absolute correctness of their sizing.

For the older boy or girl a Lackawanna Union Suit is a luxury blended of warmth, freedom and uncommonly fine construction. In a multitude of discriminating households Lackawanna is the symbol of underwear satisfaction complete from the cradle to maturity

Recoveries in Stock Market

Indicate End of Drop

NEW YORK, Sept. 29.—Variable

recoveries in the stock market today

were attributed to an impression that

the recent reversal had exceeded the

limits of safety.

This at least seemed to be the con-

clusion reached by a considerable frac-

tion of the professional element who

covered or took profits, especially in

some of the more stable leaders,

notably rails and oils.

There was further sporadic selling of

motors and their subsidiaries and

shippings, leathers and food shares.

Some of these issues added 1 to 5

points to recent declines.

Steel, equipments and associated

shares were less erratic, but the opin-

ions voiced by trade authorities were

mostly that new business continued

small. Similar reports issued from the

metal trade, accompanied by intimations

of private price concessions.

Among rails the usual crop currents

again were operative, strength and

activity being confined to low priced

coasters and grangers, also cotton car-

riers, while representative transportation

moved within a relatively narrow

groove, excepting the transcon-

tinental division. Sales were 775,000

shares. Successful flotation of the

\$20,000,000 loans to the government

of Norway strengthened exchange to

that and other north European coun-

tries. Liberty bonds contributed a very

large proportion at irregular prices to

the day's heavy trading in bonds.

Foreign issues were again featured by

United Kingdoms of 1937 at a further

advance of 2 points. Total sales, par

value, \$22,500,000. Old U. S. bonds

were unchanged on call.

'In Every Respect' says the Good Judge

You get more genuine chewing satisfaction from the Real Tobacco Chew than you ever got from the ordinary kind.

The good tobacco taste lasts so long—a small chew of this class of tobacco lasts much longer than a big chew of the old kind. That's why it costs less to use.

Any man who has used both kinds will tell you that.

True to the Buick tradition of twenty years, the one feature Buick engineers have particularly sought to develop in the new Nineteen Twenty One Buick Series is high utility value.

You will find, in fact, when you investigate these new models, that Buick capacity for hard, fast, sure transportation is even greater than ever before. The high-powered, sure-working Buick Valve-in-Head Motor is a feature of each of the new models.

Added to their great service value are a beauty of contour and appointment and a comfort of movement and seating arrangement that appeal to the most particular.
