# LUCKY STRIKE TOBACCO CIGARETTE

The one special thing that makes you like Lucky Strike — in a cigarette or pipe — is this entirely different flavor of toasted Burley tobacco. Nature has made Burley tobacco perfect — almost. Toasting finishes the job.

Toasting seals in the Burley flavor. Toasting closes the pores in each leaf. The Burley flavor can't come out except when you light your cigarette or pipe. Heat seals it in, heat releases it.

(You know the way a bee works on honey. Seals in all the delicious honey with a coating of wax. Same principle.)

It means something to you to have the original Burley flavor on hand when you want it.

Try Lucky Strike and see for yourself how Toasting makes the flavor delicious.

**WHEN LOVE RUSHED THE TUNE**

(By Frank L. Stanton.)

In the meetin' house that day Love the tune was raisin'.  
 When her bright eyes beamed my way there was grace a-makin'.  
 What the parson said no doubt was the same old story:  
 Anyway, my soul that day felt like shoutin' "Glory!"

Old hymns ringin' sweet an' clear, heavenly light—it crowned her;  
 There were angels hoverin' near—flutterin' wings around her.  
 Looptwain, so it seemed to me, and I said, a-singin':  
 "Sweeter face is here, to me, than any angel's flyin'."

Life's been sweeter ever since; to its joys I'm clingin';  
 In the silence of my soul I go to Heaven a-singin':  
 I'm glad the angels on that day, when all the grace was given,  
 Could not persuade my dream o' love to follow them to Heaven!

**THE ONE BIG QUESTION**

**G**OVERNOR COX frankly declares he believes the United States should join the League of Nations, adopting any reservations that may be needed to make our position clear and safe.

Senator Harding has officially declared his opposition to the league and to the treaty. He has advised that the whole thing be thrown overboard, that a separate peace be made with Germany and that an attempt be made to revive the Hague tribunal.

This is the overshadowing thing about the election. The fact one man is a democrat and the other a republican is secondary. To the world at large it is immaterial which party controls in America, but it is of vital interest whether or not this country joins the league. With the league in operation civilization will have the most effective machine ever devised for preventing wars. Without the league we will be where we were in 1914. Having just endured the horror and the loss of a big fire the world will still be left without a fire department.

While this situation obtains of what consequence are party lines? Is it worth while to think of party when a great issue like this is at stake. Had partisanship governed in 1860 Lincoln would not have been elected president because the republican party was then a minority party, having just been organized. The election in 1860 was fought out on the strength of the principle involved. Why not decide this election on the same basis?

The leaders of both big parties have expressed willingness to have the league issue referred to the people for settlement. That being the case, are not people freed from any of the usual obligations to party. Is it not incumbent on them to vote their league views rather than any choice dictated by party regularity?

How are we to have a referendum on the League of Nations issue unless people lay aside minor considerations that may be involved and vote their convictions on the one BIG QUESTION?

**JUVENILE COURTS ABROAD**

THE example set by the United States in establishing juvenile courts has now been followed by all the principal countries of Europe. Spain, the last to fall in line, has now adopted the modern viewpoint that delinquent children should not be treated as criminals, but rather as victims of adverse conditions and surroundings. In working out the details of the law Spanish authorities have followed America's experience, according to information received by the Children's Bureau of the United States Department of Labor.

Under the Spanish law the children's judge is not necessarily a member of the bench. He is assisted by two advisory members appointed by the commission for the protection of children. Privacy is guarded very closely in the Spanish juvenile courts; no one except probation officers is allowed in the court except by special permission, and the press is forbidden to publish any information about cases of juvenile delinquents.

Since Chicago established the first juvenile court in 1899 similar courts have been established in England, France, Belgium, Holland, Denmark, Switzerland, Italy, Germany, Russia, Austria and Hungary.

Pendleton is a live progressive town and needs the most competent, wide awake city government obtainable. This seems to have been the general view of those who have urged George Hartman to run for mayor and if so they were right. Mr. Hartman is a public spirited businessman, who has always been consistently loyal to the city and its interests. The time for filing petitions is almost up and Mr. Hartman's announcement is a bit of good news. It looked like the city election might be going by default.

The easiest way to exclude the Japanese is for Uncle Sam to join the League of Nations. We could then do as we pleased about immigration, that being a domestic question, and Japan could not fight us without fighting all other members of the league.

If the state has any more money for road work then pave the new highway from The Dalles to Pendleton. While our own roads are impassable what's the use of listening to such hair-brained suggestions as the Umatilla-Wallula road?

Newspapers supporting Harding assert he subscribed for for stock in a Marion, Ohio, brewery "just to help the town." But is that why he voted against prohibition in the District of Columbia?

Those Chicago ballplayers who sold out during the world series last year did much towards destroying the game whereby they had been making large salaries.

**Catarhal Deafness Cannot Be Cured**

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarhal Deafness, that is by a constitutional remedy.

**HALL'S CATARRH MEDICINE** acts through the blood in the mucous surfaces of the system. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be removed and the tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the mucous surfaces.

**ONE HUNDRED DOLLARS** for any case of Catarhal Deafness that cannot be cured by **HALL'S CATARRH MEDICINE**.
